RE: Air Emission License A-506-77-3-M
for Chapter 115 Minor Revision

Dear Mr. Oberlander:

Enclosed please find the final air emission license for which you applied (A-506-77-3-M). This license completes the processing of the application(s) associated with the following DEP tracking number(s): 564545. Also enclosed please find an information sheet on appealing a licensing decision and a customer service questionnaire.

If you have any questions, please write or call your project manager, Lynn Muzzey. The main office number is (207) 287-2437.

Sincerely,

Marc Allen Robert Cone, P.E.
Bureau of Air Quality

Findings of Fact and Order
New Source Review
NSR #3**

FINDINGS OF FACT

After review of the air emissions license amendment application, staff investigation reports and other documents in the applicant's file in the Bureau of Air Quality, pursuant to 38 Maine Revised Statutes Annotated (M.R.S.A.), Section 344 and Section 590, the Maine Department of Environmental Protection (Department) finds the following facts:

I. REGISTRATION

A. Introduction

FACILITY	The Dingley Press, LLC
LICENSE TYPE	06-096 CMR 115, Minor Revision
NAICS CODES	323110
NATURE OF BUSINESS	Commercial Lithographic Printing
FACILITY LOCATION	119 Lisbon St, Lisbon, Maine

B. Revision Description

The Dingley Press, LLC (Dingley) operates four lithographic printing presses that are controlled by two regenerative thermal oxidizers (RTOs). Dingley's current New Source Review (NSR) license contains conditions pertaining to the minimum volatile organic compound (VOC) destruction efficiency of the RTOs as well as the minimum temperature that must be maintained to demonstrate compliance with that destruction efficiency. Dingley has requested an amendment to their NSR license to make clarifications to these conditions.

Dingley's current license states that RTO #1 and RTO #2 shall each achieve a VOC destruction efficiency of 97.5% for an inlet concentration of 1000 ppmv or higher as propane. If the inlet concentration is less than 1000 ppmv as propane, Dingley must meet an outlet concentration of 25 ppmv as propane. Dingley would like to clarify that compliance with requirements to control VOC emissions may be demonstrated by meeting a destruction efficiency of 97.5% or an output stack concentration of 25 ppmv as propane, independent of the stack inlet concentration. Since an outlet concentration of 25 ppmv would represent greater

SPECIFIC CONDITIONS

The following shall replace Condition (1)(C) of Air Emission License A-506-77-1-M and Condition (15)(J) of Air Emission License A-506-77-2-M:

- (1) RTO #1 and RTO #2 shall each meet a minimum destruction efficiency of 97.5% removal of VOC or an output stack concentration of less than 25 ppmv as propane. Compliance shall be demonstrated by stack testing on or before September 26, 2019 and once every five years thereafter. [06-096 CMR 115, BACT]

The following shall replace Condition (24)(K) of Air Emission License A-506-70-F-A:

- (2) RTO #1 and RTO #2 shall each maintain a temperature of at least 1300°F. The RTO control systems shall be equipped with interlocks which shut down the presses if the temperature drops below 1300°F. [06-096 CMR 140, BACT]

Date of application acceptance: 10/16/14

Date filed with the Board of Environmental Protection:

This Order prepared by Lynn Muzzey, Bureau of Air Quality.

DEP INFORMATION SHEET

Appealing a Department Licensing Decision

Dated: March 2012

Contact: (207) 287-2811

SUMMARY

There are two methods available to an aggrieved person seeking to appeal a licensing decision made by the Department of Environmental Protection's ("DEP") Commissioner: (1) in an administrative process before the Board of Environmental Protection ("Board"); or (2) in a judicial process before Maine's Superior Court. An aggrieved person seeking review of a licensing decision over which the Board had original jurisdiction may seek judicial review in Maine's Superior Court.

A judicial appeal of final action by the Commissioner or the Board regarding an application for an expedited wind energy development (35-A M.R.S.A. § 3451(4)) or a general permit for an offshore wind energy demonstration project (38 M.R.S.A. § 480-HH(1)) or a general permit for a tidal energy demonstration project (38 M.R.S.A. § 636-A) must be taken to the Supreme Judicial Court sitting as the Law Court.

This INFORMATION SHEET, in conjunction with a review of the statutory and regulatory provisions referred to herein, can help a person to understand his or her rights and obligations in filing an administrative or judicial appeal.

I. ADMINISTRATIVE APPEALS TO THE BOARD

LEGAL REFERENCES

The laws concerning the DEP's *Organization and Powers*, 38 M.R.S.A. §§ 341-D(4) & 346, the *Maine Administrative Procedure Act*, 5 M.R.S.A. § 11001, and the DEP's *Rules Concerning the Processing of Applications and Other Administrative Matters* ("Chapter 2"), 06-096 CMR 2 (April 1, 2003).

HOW LONG YOU HAVE TO SUBMIT AN APPEAL TO THE BOARD

The Board must receive a written appeal within 30 days of the date on which the Commissioner's decision was filed with the Board. Appeals filed after 30 calendar days of the date on which the Commissioner's decision was filed with the Board will be rejected.

HOW TO SUBMIT AN APPEAL TO THE BOARD

Signed original appeal documents must be sent to: Chair, Board of Environmental Protection, c/o Department of Environmental Protection, 17 State House Station, Augusta, ME 04333-0017; faxes are acceptable for purposes of meeting the deadline when followed by the Board's receipt of mailed original documents within five (5) working days. Receipt on a particular day must be by 5:00 PM at DEP's offices in Augusta; materials received after 5:00 PM are not considered received until the following day. The person appealing a licensing decision must also send the DEP's Commissioner a copy of the appeal documents and if the person appealing is not the applicant in the license proceeding at issue the applicant must also be sent a copy of the appeal documents. All of the information listed in the next section must be submitted at the time the appeal is filed. Only the extraordinary circumstances described at the end of that section will justify evidence not in the DEP's record at the time of decision being added to the record for consideration by the Board as part of an appeal.

WHAT YOUR APPEAL PAPERWORK MUST CONTAIN

Appeal materials must contain the following information at the time submitted:

II. JUDICIAL APPEALS

Maine law generally allows aggrieved persons to appeal final Commissioner or Board licensing decisions to Maine's Superior Court, see 38 M.R.S.A. § 346(1); 06-096 CMR 2; 5 M.R.S.A. § 11001; & M.R. Civ. P 80C. A party's appeal must be filed with the Superior Court within 30 days of receipt of notice of the Board's or the Commissioner's decision. For any other person, an appeal must be filed within 40 days of the date the decision was rendered. Failure to file a timely appeal will result in the Board's or the Commissioner's decision becoming final.

An appeal to court of a license decision regarding an expedited wind energy development, a general permit for an offshore wind energy demonstration project, or a general permit for a tidal energy demonstration project may only be taken directly to the Maine Supreme Judicial Court. See 38 M.R.S.A. § 346(4).

Maine's Administrative Procedure Act, DEP statutes governing a particular matter, and the Maine Rules of Civil Procedure must be consulted for the substantive and procedural details applicable to judicial appeals.

ADDITIONAL INFORMATION

If you have questions or need additional information on the appeal process, for administrative appeals contact the Board's Executive Analyst at (207) 287-2452 or for judicial appeals contact the court clerk's office in which your appeal will be filed.

Note: The DEP provides this INFORMATION SHEET for general guidance only; it is not intended for use as a legal reference. Maine law governs an appellant's rights.
