7. OTHER BUSINESS – Worumbo Redevelopment update – Lisbon Economic Development Director:

Brett Richardson presented a description of work being done through the Lisbon Development Committee on the redevelopment of the Worumbo Mill site.

The Town of Lisbon purchased this property a couple of years ago. Work has been done to clean up the site and clear as many barriers as possible to increase the value for prospective developers.

A survey was completed with community input. The results showed favor to a balanced use of green space and business/residential use, Parking for downtown business', extending downtown business' to the waterfront, and complementing our existing downtown.

Currently working on Floodplain vs. Floodway criteria through FEMA and with the use of a local Survey Engineer, Little River Land Survey, Jay Raitt.

Researching grant programs to help fund a feasibility study.

Brett Richardson talked about “Live, Work, Play” examples in Portland and Westbrook.

Brett Richardson brought up the need to look at current zoning to ensure potential development is allowed.

Don Fellows talked about the public input on the survey. Keeping waterfront views and Town Use of the property. Mr. Fellows mentioned that the property is currently zoned as Village and that should work for most development options. A simple overlay zone for this property could be the best solution.

Curtis Lunt mentioned a possible “Village Zone II” option.

Lisa Ward talked about the public input event. Great feedback. Green Space and Access to river were priorities.

William Kuhl asked Mr. Richardson what the plan of the LDC is. Is it to improve the land and sell off? Mr. Richardson explained that was the idea plus town use of some of the property. William Kuhl mentioned deed restrictions as a way to maintain some town control.
