# Town of Lisbon

World Trade Center 911 Dedication Ceremony

Residents joined with Lisbon Public Safety organizations to dedicate a piece of the World Trade Center that is located in Chief Ricker Park on Village Street in Lisbon.

# 2011-2012 Annual Report

### Dedication

Dot Smith, Ruth Brooks, Al Smith, and Merton Ricker pictured below. Other volunteers not pictured here are Earl Williams and Mike York.

Lisbon Historical Society—http://www.lisbonmainehistory.org
Archive Hours—Thursdays 1 PM to 4 PM
Meetings—Second Wednesdays of the Month, 7:00 PM

In anticipation of the Town's bi-centennial, the present Lisbon Historical Society was organized in 1996. Both Bill Barr, a history buff, and Norm Fournier, then publisher of the Lisbon Enterprise, were instrumental in gathering townspeople interested in the history of the Lisbon area. They began collecting historical memorabilia and documents, and held an organizational meeting at the library, but soon moved to a room in the Enterprise building. When the MTM Center became a community resource, the historical society gained two rooms—one serving as a museum for its holdings, and a second room for files and research, as well as a place for the Society's monthly meetings.

The Society not only presents monthly programs at the MTM Center, but also maintains the old Ridge School House, restored and furnished as it would have been as a town district school in the old days.

The Society's volunteer staff actively collects and preserves material that promotes the understanding of the history of the Lisbon area. This group has gathered an extensive collection of historical items, ranging from documents, files, tools, and household goods, as well as many vital records, including obituaries, family histories and genealogies, clippings, pictures, and postcards. They also maintains items relating to school life, town businesses and personalities, and fraternal and military organizations. The collection is constantly growing, and is a boon to preservationists and researchers. Stop by and visit us. For more information call Dot Smith at 353-8510.

STATE OF MAINE
OFFICE OF THE GOVERNOR
1 STATE HOUSE STATION
AUGUSTA, MAINE
04333-0001

January 9, 2013

Dear Lisbon Citizens:

Maine has a great tradition of civil involvement and citizen participation in the decision making process. Thank you for taking the time to become informed.

In the fall of 2011, a prominent national business magazine published a business climate ranking that put the country on notice that Maine is the toughest state in our nation to grow a business and create jobs. As a result of our challenging business climate, our per capita income is just 80 percent of the national average.

One of my top priorities for getting Maine moving is regulatory reform. The objective is a cooperative approach to how the State and municipalities work with the private sector rather than a weakening of standards or oversight. This is why I have created a new "Certified Business Friendly Community" program which is geared towards helping towns reduce red tape, and work with our job creators.

Plenty of good paying jobs and a growing tax base are what is needed to solve many of our public sector problems. Given the chance, Maine's private sector can create prosperity for our communities and working families.

If we want to make Maine prosperous, we also need to address our high energy prices and our educational system. Maine needs to be able to compete nationwide, and I am focused on reducing the high cost of electricity for Maine people. In addition, businesses need a qualified workforce to fill jobs of tomorrow, and it is critical that we put our students first, and reform our educational system.

Another top priority is fiscal reform. We will never have enough to spend on our priorities if we do not get our state indebtedness and welfare spending under control. In previous sessions, we made some progress in reforming our welfare system. However, there is still work to do. I have put forth budgets that are focused on reining in welfare spending, and offering tax relief to Mainers.

It is a pleasure serving as your Governor. If ever I can be of assistance to you or you have any questions or suggestions, I encourage you to contact my office by calling 287-3531 or by visiting our website at <a href="https://www.maine.gov/governor/lepage/">www.maine.gov/governor/lepage/</a>.

Sincerely,

Paul R. LePage Governor

COMMITTEES:
SPECIAL COMMITTEE
ON AGING.
RANKING MEMBER
APPROPRIATIONS
SELECT COMMITTEE
ON INTELLIGENCE

Town of Lisbon 300 Lisbon Street Lisbon, ME 04250-6813

Dear Friends,

It is a privilege to represent Maine in the United States Senate, and I am deeply grateful for the trust the people of Maine have placed in me. Public service is a responsibility I take seriously. In 2012, I reached a milestone by casting my 5,000<sup>th</sup> consecutive roll-call vote. I have never missed a single roll-call vote, a record unique among current Senators.

As we enter 2013, the economy and jobs remain my top priorities. As a senior member of the Defense Appropriations subcommittee, I am committed to keeping our nation secure and our skilled defense workers on the job. I secured funding to increase the shipbuilding programs at Bath Iron Works and advance essential modernization projects at the Portsmouth Naval Shipyard. I was honored to receive the Navy League's Congressional Sea Services Award for 2012 as the leading advocate for our maritime services and US shipbuilding.

Maine's economic future recently received a boost with significant federal funds for deep-water, offshore wind energy research and development at the University of Maine and in private sector firms. Maine has some of the strongest and most consistent winds off our coast, and we have some of the world's leading researchers. These funds will help Maine be a world leader in developing this clean, renewable energy source, ultimately resulting in the creation of thousands of good-paying jobs for our state.

As a leader on the Transportation Appropriations Subcommittee, I am also working to ensure that investments are made in our transportation infrastructure. Early last year, construction began on a modern, safe, and efficient replacement for the Memorial Bridge at Kittery, a project for which I worked to secure funding. Working with the State Department of Transportation, I also secured federal funding to replace the aging Martin Memorial Bridge in Rumford and the decrepit Richmond-Dresden Bridge. In 2013, I will continue to seek funding for improvements in our roads and bridges to make traveling safer and more efficient for our citizens and to facilitate commerce. It is also gratifying to see the heaviest trucks on the Interstates where they belong rather than on our downtown streets and country roads. This is the result of a law I authored in 2011.

Maine's environment is critical to our economy and the health of our residents. I opposed efforts in 2012 that would have weakened the landmark Clean Air Act and would have exposed our state to emissions from coal-fired power plants elsewhere. At the same time, I have continued to work with a bipartisan group of Senators to ensure that federal regulations on industrial boilers

protect our environment without imposing onerous burdens on our forest-products industry and other manufacturers.

Many Mainers contacted me last year to express concern about the Postal Service, which is essential to our economy and our way of life. Last year, the Senate approved legislation I co-authored to help put the Postal Service on a sound financial footing since it has been losing billions of dollars. Although the House failed to act on our bill, the Postal Service has heeded my requests to keep open the vital mail processing center in Hampden. I will continue to work to ensure that all Mainers, regardless of the size of their communities, have access to the postal services upon which they rely.

As the daughter of a World War II veteran wounded in combat, I know how important quality, accessible health care is for our veterans. This past year, I worked to ensure that our rural veterans' health care facilities are fully staffed and to strengthen our Veterans' Homes. Federal health agencies also began an investigation into whether Maine veterans were exposed to toxic defoliant chemicals while training at Gagetown, New Brunswick.

With shortages of medications putting patients at risk, I co-sponsored legislation to encourage manufacturers to report anticipated production problems to help avert shortages. Through this voluntary approach, more than 200 potentially life-threatening shortages were prevented last year.

While Congress averted a huge increase in tax rates for middle-income American families and small businesses, there remains a lot of work to be done to reduce our unsustainable \$16.4 trillion debt. It is essential that we do so in a responsible way, but that Washington stop delaying decisions that will help shape our economy and future prosperity.

I remain committed to doing all that I can to address your community's concerns in 2013. If I may be of assistance to you in any way, I encourage you to contact my state office in your area.

Sincerely.

Susan M. Collins United States Senator MICHAEL H. MICHAUD 2ND DISTRICT, MAINE

WASHINGTON OFFICE 1724 Longworth House Office Building Washington, DC 20515 Phone: (202) 225-6306 Fax: (202) 225-2943

#### Dear Residents and Friends:

While far from perfect, the legislation passed to avoid December's fiscal cliff embodied a spirit of bipartisan compromise that I hope will carry over to a broader agreement on our nation's finances. The bill ensures that Mainers will not have to pay an estimated \$1.4 billion in additional taxes in 2013, and extends a number of vital programs relied upon by Mainers. I look forward to working on a fiscally sound compromise that avoids burdening our most vulnerable citizens, seniors and veterans.

The gridlock in Washington has not slowed my efforts to fight for Maine's industries on the national and international arena. I have been proud to lead the fight in Congress to protect American manufacturers like New Balance, which employs approximately 900 Maine workers across three factories, from unfair tariff reductions. After presenting President Obama with his own set of New Balance Sneakers, I brought U.S. Trade Representative Ron Kirk to the Norridgewock facility to learn more about the industry. I have also worked with Ambassador Kirk to oppose Nova Scotia's proposed subsides for its paper mill in Port Hawkesbury.

My 2<sup>nd</sup> annual tour of Maine's manufacturers to hear firsthand about their success and challenges was very helpful. These tours are an important part of my ongoing "Make it in Maine" agenda which consists of initiatives to boost domestic manufacturing. The feedback I received has been invaluable in helping to identify legislative action needed to support job growth in the industry.

It will also be my great honor to continue serving our nation's veterans as the new Ranking Member of the House Veterans Affairs Committee. While I am proud of my accomplishments helping to improve services for our brave men and women in uniform, I know there is still so much to do. As Ranking Member of the full Committee, I will fight for new advances in areas such as veteran employment, VA claims backlogs, and veterans' health care.

My highest priority has always been ensuring that Mainers receive timely and quality constituent services. Whether you have a specific concern with a federal agency or need help connecting to resources, please don't hesitate to reach out to me at any of my offices. I also encourage you to visit my website (<a href="www.house.gov/michaud">www.house.gov/michaud</a>), where you can email me, sign up for email updates, and connect with me on Facebook and Twitter.

Thank you again for the opportunity to represent you in Congress.

With warmest regards,

Michael H. Michaud Member of Congress

#### Annual Report to the Town of Lisbon

A Message from Senator Garrett Mason

#### Dear Friends and Neighbors:

It is an honor to represent you in the Maine Senate for a second term. I am grateful for the trust you have placed in me to work for the betterment of this community and all of Androscoggin County.

Looking back at the results of the 125<sup>th</sup> Legislature, I am proud of the work accomplished by lawmakers during an extremely difficult fiscal climate. We increased state funding to local education by \$63 million, brought solvency to the retiree pension system, created more transparency and accountability within state agencies, and paid millions of dollars back to our state hospitals. More importantly, we improved Maine's business climate. According to the 2012 CNBC annual rankings of America's top states for business, Maine climbed five spots from the previous year. The improvements made in education funding and test scores, the state's cost of doing business, infrastructure and transportation, and business friendliness all led to this higher ranking. It is vital that we keep the changes that were made during the 125th Legislature. They are necessary steps to setting us on the course toward a brighter future.

Lawmakers have a great deal of work on their plates for the first session of the 126<sup>th</sup> Legislature. The most pressing issue before us will be how to address a \$100-plus million shortfall within the Department of Health and Human Services and its MaineCare program. Additionally, there is a \$35 million revenue shortfall in the budget that ends June 30<sup>th</sup> and a projected \$880 million gap in the next two-year budget. Lawmakers will have some very difficult choices to make during the upcoming months on how to address this financial dilemma.

During the 126<sup>th</sup> Legislature, I will serve as Republican Senate Lead on the Veterans and Legal Affairs Committee. We must make it a priority to do everything we can, as a legislative body, to help our veterans obtain the benefits they are due for their service to our country. As a member of this committee, I look forward to not only advocating for our veterans and military, but also working on issues pertaining to liquor laws; lottery and gaming; election laws; campaign practices and financing; voter registration; initiatives and referenda.

Again, thank you for entrusting me to represent you in Augusta. Please feel free to contact me if you need my help in navigating the state bureaucracy. I can be reached in Lisbon Falls at 577-1521, in Augusta at 287-1505, or by e-mail at SenGarrett.Mason@legislature.maine.gov.

Sincerely.

Garrett P. Mason State Senator

January 2013

Dear Friends & Neighbors:

It continues to be a pleasure to serve as your Representative to the Maine Legislature.

The 126<sup>th</sup> Maine State Legislature must continue the work began during the 125<sup>th</sup> Legislature to revitalize Maine's economy. Many strides were made to address high insurance rates, costly redundant regulatory measures, and restrictive tax rates which impede the ability of businesses to prosper. It is imperative that lawmakers continue to make informed decisions in order to improve the state's economic situation.

I will continue to work in the best interests of all the residents of District 104. Through compromise and bipartisanship, we should be able to continue to improve the business climate in Maine while aiding those families that are struggling in this tough economy.

I am pleased to be reappointed to the Joint Standing Committee on Inland Fisheries and Wildlife. It is very important to me to preserve and protect our beautiful State of Maine, while ensuring folks have access to enjoy the various sporting and recreation activities our numerous bodies of water and woodlands provide.

I encourage you to visit the Legislature's website at <a href="http://maine.gov/legis">http://maine.gov/legis</a>, where you can find links to live video and audio broadcasts of the session and public hearings as well as information about proposed pieces of legislation. This service provides an excellent option for those who are unable to travel to the State House

Thank you and I look forward to once again proudly represent the citizens of Lisbon and Lisbon Falls. Please do not hesitate to contact me with any comments or questions that you may have concerning state government.

Sincerely,

Dale J. Crafts

State Representative

District 104

#### HOUSE OF REPRESENTATIVES

2 STATE HOUSE STATION AUGUSTA, MAINE 04333-0002 (207) 287-1400 TTY: (207) 287-4469

January 2013

Dear Friends and Neighbors,

Thank you for the opportunity to be your representative in Augusta. Members of the 126th Legislature were sworn into office on December 5, 2012. It will be a privilege to represent District 105 as we will face many challenges when the 126th Legislature convenes on January 8, 2013. During the next five to six months, legislators must find ways to deal with large and structural budgetary problems. As many of you know, state projected revenues from state sales taxes and corporate taxes are running well below what was previously projected, similar to what many other states are experiencing. This makes it necessary to adjust the state's budget in ways which will impact Maine's citizens. I look forward to working with fellow legislators across both aisles and with the governor to find solutions to the long term problems that we face in hopes of ensuring an effective and efficient government that works for the people of District 105 and all the citizens of Maine.

I have been selected to sit on the Inland Fisheries and Wildlife Committee for the 126<sup>th</sup> Maine Legislature. This committee oversees the Department of Inland Fisheries and Wildlife to include hunting (including hunter safety), fishing, trapping and game wardens. This committee also has oversight of ATV's, snowmobiles, watercraft and boater safety. As a lifelong enthusiast of Maine's outdoor heritage, I look forward to the challenges that come with protecting and promoting the many outdoor recreational opportunities that benefit all Mainers.

I encourage you to visit the Legislature's website at http://www.maine.gov/legis for up-to-date bill status information, public hearing dates, and roll call votes on legislation. If you would like to sign up to receive my weekly e-newsletter, please send an e-mail to espling2@securespeed.us. If you have any concerns, questions, or thoughts do not hesitate to share them with me.

Sincerely,

Ellie Espling

### Town Council

#### Fern Larochelle, Chairman

It is with great pleasure that I update you the citizens of Lisbon on a review of the 2011-2012 fiscal year. We have continued to stay on track with many of our service levels and continued to make improvements to our infrastructure. This year once again was a very difficult budget year. The economy saw very little improvement. Our revenue sharing was up slightly, but way below where we were 4 years ago. Our Excise tax collection stayed flat as well, which does help.

The Town Council welcomed Lisa Ward to the Council and we look forward to her energy and commitment to good government. The council continued to strive to present a budget this year that maintained all of the services that you request and was still able to keep the tax rate flat. This effort was the combined work of the school committee, town council, and both administrative teams. I thank all those individuals involved. It required many meetings and sometimes long hours. The council continues to meet on the off Tuesday's to hold workshops and discuss issues that we must address and plan for.

The town was able to continue work on parts of our infrastructure such as MTM Window replacement, siding on the ET Smith House Company, brick work at the Library and other small projects. We saw the completion of the renovation of the Campus Street School now "Campus Commons". What a wonderful job Brunswick Housing Authority has done. We were able to continue on a smaller scale on replacements of police vehicles, public works equipment ,and other small projects.

All of our volunteers that serve on committees were very busy this year. We have continued growth at the Recreation Department with more pro-

grams for every age group. The Senior Program has really grown. The Trail Committee has slowed down waiting for the final approval of the River Trail approval from the feds. Hopefully, next year we will break ground. The Conversation Committee is busy reviewing all our land and looking at preserving our open space. MTM Committee has done a great job advising our improvements to the building even though progress is slow due to funding (a little bit at a time). The Planning Board has been very busy working on our ordinances and discovering areas that need to be addressed. They have been working with a Planner this spring getting help to address our needs. My special thanks to the Moxie Committee ,which again is mostly volunteer with dedicated municipal staff and elected officials. Moxie had record crowds this year that came from all over the country. We got press from Chicago and other US cities. It is truly an amazing event. The Committee continues to grow the event and sometimes without any help. On behalf of the Council I want to thank all of our volunteers. Without you we could not do it all.

The Town Council continues to work with the Town Manager and his staff to look to the future and work towards finding efficiencies and finding ways to get it done. I would like to thank all of the employees for the great work they do. We have asked you to do more with less and you continue to find ways to do it. Thank you.

We do not see the struggle going away anytime soon and we will continue to look at how we do things. We will eventually be pushed to make some hard decisions for the future. We will need your input, so please don't hesitate to speak to any of us that serve on the Council. We will continue to work hard for you.

## Town Manager

#### Stephen Eldridge, Town Manager

To the Lisbon Town Council and the Citizens of Lisbon:

It is with great pleasure that I present to you the Annual Report for the Town of Lisbon, fiscal year ending June 30, 2012. It is the purpose of the Annual Report to inform the citizens of Lisbon on the financial condition of the town and to report on the operational aspects as well. I will highlight the areas that I have had the opportunity to review.

The financial position of the town of Lisbon remained strong with very little change to our undesignated fund balance. The auditing firm, Runyon, Kersteen, and Ouellette completed the town annual audit report and the Finance Department got high marks from them. Finance Director Jessica Maloy continues to do an excellent job as do our department heads. They have all managed their departments well and made sure that they stayed within their budget. Despite the poor economy, we have been able to maintain the service level with fewer people, work on our infrastructure, equipment replacement, and continue to find a way to provide quality services.

In the fiscal 2011-2012, the Town Council was able to maintain a flat impact to the tax rate. The School Department and the municipal government worked together to make the impact as little as possible. All of our municipal departments remain busy especially Public Works, Police, and Fire. Our recreation programs continue to thrive and the MTM Community Center continues to grow and stay busy. Our seniors have numerous programs throughout the month and continue to take great trips. The athletic programs grow, as does the fitness center. We did another section of windows in the MTM and we will continue to put aside money to complete that project in 2 years.

We welcomed new Councilor Lisa Ward, who brings a tremendous amount of energy and commitment to the community. We all look forward to working with her. Chief Brooks and I continue to work on consolidation of the Androscoggin County Dispatch services. This topic seems to continue to be active despite the controversy of location. Most of the smaller Androscoggin communities have been working with us and hope to move their dispatch services to Lisbon.

Bill Van Tuinen our Assessor and his team continue to work on the revaluation. It is a 4-year program and we are just into our second year. Kathy Malloy our Deputy Assessor and Alan Gove are working on the updates and visiting homes and businesses.

We continue to see slow growth in the economy. We see some activity and interest in Lisbon from outside developers and expansion from within the Lisbon business owners. Moxie was a huge success this year with record crowds. This event is made possible by municipal staff and local volunteers that step up and make it a success. I thank all of you for your continued commitment to the Moxie Festival.

Please follow up on the Department Head Reports to get more detail on what is going on in their areas. Don't forget that we also have our on-line quarterly Manager's Report. Check out our web site as it contains a lot of information, our monthly calendar, announcements of events, etc. It also has our council agendas with material as well as the minutes of each meeting. It covers our Planning Board meetings and other municipal boards and committees. It ,also, links to other off site web pages as well.

The Town Council and municipal staff continue to be optimistic about the future growth and prosperity of Lisbon. We continue to view our glass half full and feel that we are on the right track in making improvements and planning. With this positive attitude and hard work and the right choices, Lisbon will grow and improve.

I would like to thank all of the Town Councilors, municipal staff, and volunteers for their continued hard work. The town of Lisbon is fortunate to have such a great working team of committed individuals. As I have said in recent monthly reports, individuals that work in the public sector do it with a big heart and want to accomplish good things for their community. We will all continue to work hard for our citizens and provide the level of service you request.

### Town Clerk & Elections

#### Twila Lycette, Town Clerk 2011 Clerk of the Year

The Town Clerk's Office has been busy this past year with Elections, Legislative Updates, transcribing Council Meeting Minutes, maintain vault records, issuing Business Licenses, Vital Records, Dog Licenses, along with Hunting and Fishing Licenses. Our updated Ordinances, Charter, and Council Meeting Minutes and agendas are on-line for your convenience. We continue to offer on-line Dog Registrations this year.

We adopted the following charter amendments by referendum vote on November 8, 2011:

- •To clarify that an Ordinance is required for any disposition of any type of Town owned property except tax acquired property
- •To clarify that time limits are tolled during court review on a referendum petition and that new petitions proceed independent of the court review.
- •To clarify procedures for appointing Town employees.
- •To require that the Tax Assessor be certified as an Assessor by the State of Maine
- •To clarify that the Town Council may act as the Board of Assessment Review in the absence of appointment of an independent Board.
- •To clarify that abandoned capital expenditures lapse.
- •To elaborate and specify in more detail the procedures and requirements for issuing permanent financing in the form of general obligation and revenue obligation and revenue obligation securities on behalf of the Town of Lisbon.
- •To amend recall procedures to require the reasons for recall be related to the requirements, duties, and obligations of the position, to provide for an independent, external review of the sufficiency of the reasons for recall, and to provide for a public hearing so that the public may discuss the petition and the basis for the recall.

In August 2011, the Council awarded E. T. Smith Hose Company's roofing and siding bid. The Council adopted the MTM Park hours as 7AM to 9PM and added that all overnight stays in Beaver Park and Summer Street Park be authorized. They adopted the Wellhead Protection Ordinance, as well. The Council received the Downtown Lisbon Falls Economic Revitalization Strategy Report as presented by Scott Benson and Planning Decisions of South Portland.

In September 2011, the Council approved an Access Management Ordinance. The Council approved transfers totaling \$207,783.54 and carryovers totaling \$776,370.02. The Fire Chief announced Lisbon had received our World Trade Center Memorial Monument. He invited the Council and public to attend the dedication ceremony.

In October 2011, the Council approved a Purchasing Policy Amendment requiring written quotes for items in excess of \$5,000. The Council authorized the solicitation of bids for the demolition of 3 Village Street. The Council adopted a Resolution adopting the 2011 Androscoggin County Hazard Mitigation Plan.

In November 2011, the Council adopted the Supplemental Funds Ordinance, amendment to the Ethics and Conflicts of Interest Ordinance, and re-appointed the Ethics Panel Chairman. The annual election of officers was held on November 8, 2011 with 2,770 ballots cast totaling 43% voted.

In December 2011, the Council held its annual Inauguration of Elected Officials ceremony. The Town Clerk administered oaths of office to the newly elected officials. The Council appointed Kathy Malloy Lisbon's E911 addressing Officer and gave special recognition to Jessica Maloy and Cathy Messmer for receiving a high commendation from the auditors. The Council adopted zoning ordinances and maps as well.

In January 2012, the Fire Department Color Guard presented the flags for the Fire Department Officer Promotion Ceremony. After individual recognition was completed and pins were placed on the uniforms the Town Clerk administered the oath of office to each newly appointed officer.

Four Bates College students presented a signage project they had completed for Lisbon's Trail System. Council orientation took place with Attorney Therriault explaining the rules for conducting meetings, procedures for making motions, and the steps necessary to adopt ordinances and make charter changes.

In February 2012, the Council scheduled dates for the Municipal and School Budget presentations. The Council approved posting roads from February to May and endorsed the Animal Control Contracts with Bowdoin, Durham, and Sabattus.

In March 2012, Chief Brooks informed the Council the 2011 Homeland Security Grant Program application that was submitted to the Maine Emergency Management Agency (MEMA) for four (4) thirty (30) channel radio consoles and antenna system for the Rural Regional Communications Center plan was resubmitted on December 19 for two (2) twenty (20) channel radio consoles to replace the two consoles currently being used in Lisbon's Communication Center was approved for \$58,450. The Council adopted an amendment to Chapter 70 Zoning, changing Gartley Street to a Diversified Development District. In May 2012, the Council voted to support the Lisbon consolidation plan consuming the County Dispatch, but agreed that if that failed they would keep Lisbon's dispatch and not go with the Lewiston/Auburn 911 plan.

The Council, also, recognized Joanne Campbell with the Spirit of America award for her outstanding community service volunteering with the DARE Adventure Program, Family Fun Run, 5K Moxie Road Race, Lisbon Ski and Field Hockey Programs, Lisbon Boosters, and outreach work through the Lisbon Falls Baptist Church.

In June 2012, the Council adopted the School Budget for \$14,003,690 and ordered a School Budget Validation Referendum Election, which was held on June 12; 812 ballots were cast with 534 voters approving the School Budget. The Council approved the 2011-2012 Municipal Budget on June 5 totaling \$7,361,251 with estimated revenues totaling \$2,814,450. Department revenues generated from dog licensing, business licensing, voter registration, vital records, and miscellaneous other sources are available in this report on the financial pages listed under Town Clerk Revenue.

Lisbon continues to use the Accuvote tabulating machine through December 2012. The state has mandated all towns use the new DS200 voting system for the next five years. Absentee voting at the Clerk's Office or requesting absentee ballots by immediate family members and residents currently ends on the Thursday prior to Election Day at the close of business; after that it is done by special circumstances only. You can request an absentee ballot from the State of Maine's online Electronic Absentee Ballot Request System (ABRS) or call the Clerk's Office as early as 90 days before Election Day. See link on our Election web page to the State's online ABRS. Ballots going out by mail and returned by mail do not need to be witnessed. All ballots must be received by 8PM on Election Day, if not sooner. Polling hours are typically 7AM to 8PM. Polling Locations are typically: District 1 in the Gymnasium at the Superintendent's Central Office building at 19 Gartley Street and District 2 at the MTM Center Gymnasium at 16 School Street in Lisbon Falls.

The Town Clerk continues to serve as your Registrar of Voters, along with Deputy Registrars, Beth French, Gwendolyn Michel, Lorraine Dunn, Margaret Ganong, Sheila Gray, Marie Hale, and Pauline Baumer. The voter list is updated daily by the Clerk's Office. The following

numbers of voters have registered in the following parties:

<u>Party</u>	Nov 1999	June 2012
Democrat	1955	1775
Green	4	195
Republican	1440	1772
Un-enrolled	<u> 2679</u>	<u> 2616</u>
Total Registered	6078	6358

#### **2012 HUNTING**

#### & FISHING LICENSE PROGRAM

Hunting & Fishing License program remains about the same as last year. We sell resident and non-resident licenses. We sold 955 licenses. The Town Clerk sent to Augusta \$27,069.50 this year.

#### DOG LICENSING PROGRAM

#### **RUNS FROM OCTOBER 15 TO DECEMBER 31**

You can register your dog in person, by mail, or on-line now. You will need the rabies certificate and any neutering or spaying information. We can verify rabies or spaying and neutering information for a \$2 fee per dog. Dog licenses expire annually December 31. The late fee after January 31 is \$25 per dog. Our local dog shelter is still located on Upland Road. Our Animal Control Officer is Jeff Cooper. You may reach Mr. Cooper at the Lisbon Police Department at 353-2500. Renewal dog notices were mailed. Many residents responded with positive comments, and 1,112 dogs were licensed in 2012.

#### VITAL RECORD PROGRAM

Vital records were filed and indexed. The TRIO software now contains electronic information to generate certified copies, however the State of Maine is moving in the direction of providing a standard statewide system to issue electronic birth records beginning in 2013. Currently we are using that system to issue death certificates.

The following numbers of vital records were recorded in Lisbon for the fiscal year 2011-2012 as follows:

108 Births
70 Deaths,
57 Marriages

235 Total documents filed.

#### PUBLISHED CLERK FEE SCHEDULE

\$40 Marriage License
\$15 Certified Vital Record
\$6 Second Certified Same Vital Record
\$5 Un-certified Vital Record including 5-yr search
\$20 Burial Permit
\$4 Affidavit to correct a Vital Record
\$4 Affidavit for Legitimating a Birth
\$10 Certificate of Business Filing/Partnership
\$4 Attested Copy of Business Filing
\$10 Certificate of Business Filing Withdrawal
\$4 Pole Permit/Public Record/Honorable Discharge
\$2 Additional Page Pole Permit/Public Record
\$5 Certified Voter Registration Card
\$5 Notarization Fee
\$5 Dedimus's Oath

\$15 Copy of DVD's of Meetings \$10 Per Hr Records Search plus copy fees/1st hr free \$ .50 one sided copies \$ .75 two sided copies \$1.50 ledger size copies

### Assessing Department

#### William Van Tuinen, Assessor Kathaleen Malloy, Deputy Assessor

It is the assessor's job to equitably apply Maine tax laws to all property in the Town of Lisbon. The assessor is responsible for discovering, listing, and valuing all taxable property including both real and personal property. This is accomplished through the maintenance of property record cards, deed transfers, tax maps and keeping track of individuals and property eligible for exemption.

Almost all of the records in the assessing office are available to the public, including the tax commitment book, tax maps, property record cards, and real estate transfer declarations.

Lisbon's tax year is a fiscal year that runs from July 1 thru June 30; assessments for that year are fixed on April  $1^{st}$  as per State statute.

Taxable Value	2011	2012
Real Estate	\$425,638,589	\$424,816,401
Personal Property	\$29,038,360	\$26,067,600
Total Value	\$454,676,949	\$450,884,001

#### **Current Land Use Programs**

These programs allow for the land assessment to be based on its current use rather than its potential fair market value. These programs include Tree Growth, Farm Land, and Open Space classifications.

Lisbon has the following acreage enrolled in these programs:

Classification	Acreage	Assessed Value	Acreage	Assessed Value
	2011	2011	2012	2012
Tree Growth	3,392	\$872,598	3,380	\$939,139
Farm Land	552	\$131,864	552	\$131,864
Open Space	89	\$64,574	89	\$64,574

#### **Exempt Property**

These are properties that are classified exempt under Title 36, M.R.S.A. Sections 651, 652, 653, 654, & 656.

Exempt Property by law	2011	2012
Total Value	\$50,453,950	\$50,114,160

The exemptions include property owned by the State, Town, Charitable and Benevolent Organizations, Houses of Religious Worship and Parsonages. Also included are the values of the veteran and blind exemptions.

#### **Exemption Programs**

**Homestead Exemption**—This program provides a measure of property tax relief for certain individuals that have owned homestead property in Maine for at least twelve months and make the property they occupy on April first their permanent residence.

**Veteran Exemption**—Veteran and Widow of Veterans- A veteran who served during a recognized war period and is 62 years or older; or, is receiving 100% disability as a Veteran; or, became 100% disabled while serving.

**Blind Exemption**—An individual who is blind can apply for a \$4,000 in valuation exemption from taxation.

**Tax and Rent Refund**—Maine Residents also have the benefit of another tax relief program that is administered by Maine Revenue Services. This is the **Property Tax and Rent Refund "Circuitbreaker" Program** and is based on income. We have applications here in the office or download @www.maine.gov/revenue. The deadline for filing is May 31st.

**Personal Property**—Personal Property Taxes are levied against furniture, fixtures, machinery and equipment of business property owners. The tax rate is the same rate as applied to taxable real estate.

**Business Equipment Programs**-There are two programs that offer relief with personal property taxes. The first one is **(BETR) Business Equipment Reimbursement Program** administered by the State, and is available to any business taxpayer placing eligible personal property into service after April 1, 1995. The second program **(BETE) Business Equipment Tax Exemption** is an exemption for qualifying equipment that is placed in service on or after April 1, 2008.

For applications or more information regarding any of these programs please see our web site at www.lisbonme.org or stop by the office. Maine Revenue Services web site is also a good resource of information at http://www.maine.gov/revenue/forms/property/appsformspubs.htm.

# Code Enforcement Department

#### Dennis Douglass, Code Enforcement Officer

For the fiscal year 2011-2012 the Code Enforcement Officer was Michael Cote. Our newly appointed Code Enforcement Officer, Dennis Douglass, administers laws relating to land use, such as building codes, zoning ordinances, and the Maine Plumbing rules.

A major function of the Code Enforcement Office is to provide information to the public and to assist property owners in making prudent land use decisions. The office receives many requests per day for information on subjects ranging from routine zoning and building matters to issues involving State and Federal laws.

The office has a fairly extensive collection of reference materials and can provide answers to some fairly complicated questions.

All construction within the boundaries of the Town of Lisbon requires a permit(s). Applicants may contact the Town of Lisbon Code Enforcement Office at 353-3000 Ext. 111 for any questions they may have. The Code Enforcement Office may also be contacted on the Internet at www.lisbonme.org. Go to Code Enforcement.

A permit is <u>required</u> for all new construction / remodeling / demolition / signage

A permit is <u>not</u> required for repairs or replacements

A permit is <u>not</u> required for a boundary fence (max. 6' height)

#### Permits July 1st 2011 thru June 30th, 2012

Building Permits - 112 Fees = \$3,991.00

Plumbing Permits - 43 Fees = \$4,755.00

Electrical Permits - \*76 Fees = \$2,894.00

\*Electrical permits / Fees go directly to

Ron Roy, Electrical Inspector

# Planning Board

#### Members

Jeffrey Ganong, Chairman Donald Fellows, Vice Chair John Potvin Francis Drake, Jr. Dan Nezol Steve Warren, Associate Gerald Kamke, Associate

The Lisbon Planning Board hears and decides upon zoning ordinance issues, conditional use permits, flood hazard development permits and site plan review applications.

The Planning Board meets and holds public hearings on the 2nd and 4th Thursday of each month unless otherwise posted. During the 2011/2012 fiscal year the Planning Board held several workshops and meetings that resulted in:

- Bylaws to standardize its routine
- Approval of a major business park
- Development of a modernized Home Occupations Ordinance
- A streamlined application process for various land use activities
- Implementing a master planning effort for the Route 196 corridor

#### Public Hearings for fiscal year 2011/21012

- Access Management Ordinance Sent to Town Council for approval
- Wellhead / Aquifer Protection Ordinance Sent to Town Council for approval
- Conditional Use Permit 2 bay garage in RP Zone Tabled
- Conditional Use Permit 3 bay garage in RP Zone Approved
- Zoning change from GR to Village Zone Sent to Town Council for review
- Conditional Use Permit Utility shed in RP Zone Approved
- Site Plan / Subdivision Preliminary Plan Application Approved with conditions
- Zoning change from GR to Div. Development Sent to Town Council for review
- Flood Hazard Development Application Demolition Permit Approved
- Site Plan / Subdivision Final Plan Application Approved
- Comprehensive Plan Amendments Route 9 abutters Tabled
- Conditional Use Permit Application Ongoing construction activity for Commercial Development -
- Approved with conditions
- Conditional Use Permit Application Self storage facility Approved with conditions
- Subdivision Permit Application Subdivide 3 lots Approved

Questions should be directed to the Code Enforcement Officer at 353-3000 Extension 111 or at www.lisbonme.org / Code Enforcement.

## Appeals Board

#### Members

Miriam Morgan-Alexander, Chairman Calvin Beaumier Janet Tuttle Karin Paradis Shaun Carr Kyle Murcin Josh Holmes

The Zoning Board of Appeals hears requests for variances, interprets zoning regulations and also hears administrative appeals to decisions made by the Code Enforcement Officer.

Maine law requires that every zoning ordinance provide for an appeal process by which individuals may challenge the administrator's decisions or ask for relief from the standards of the ordinance (Title 30-A § 4353). The ordinance must describe this process. For example, what decisions are appealable, with whom an appeal should be filed and within what time frame?

Board of Appeals members are appointed by the Town Council for a 3-year staggered term. The Board meets on the 3rd Monday of each month unless otherwise posted. Applications are due 10 days prior to the scheduled meeting. There is a \$50.00 application fee.

During the 2011 / 2012 fiscal year the Appeals Board heard one appeal: Case #11-1 Approved a setback variance for an addition and ADA access ramp.

Questions should be directed to the Code Enforcement Officer at 353-3000 ext. 111 or at www.lisbonme.org. Go to Code Enforcement.

During the Fiscal Year 2011 - 2012 the

Appeals Board heard one appeal:

Case #11-1

Approved a setback variance for an addition and ADA access ramp.

### Economic & Community Development

#### Scott Benson, Economic and Community Development Director

The following is a summary of the primary activities of the town's Economic and Community Development department during the period of July 1, 2011 to June 30, 2012.

The 29th annual Moxie Festival was held on the weekend of July 8, 9 and 10, 2011. Many longtime festival observers called it the best Moxie Festival yet. The town's public safety departments estimated that as many as 50,000 visitors attended the festival over three days. Credit for this success goes to the Moxie Festival planning committee, the dozens of local businesses that provided financial support through sponsorships, and the myriad local groups and individuals that participated in the event. The committee, with the assistance of ECD, followed up with a full financial and programmatic report on the festival that was presented to the Town Council in September, 2011.

In August, 2011, ECD completed work on a **downtown vision** document with the assistance of consultants from Ekistics Planning and Design of Bangor. The document memorialized the results of town visioning sessions conducted by ECD in 2008 and 2009, and outlined the various public and private resources that can be used to realize that vision. The document, which was funded through a CDBG planning grant authored by ECD in 2010, will be an important tool to guide and inspire present and future downtown revitalization efforts on both Main Street, Lisbon Falls, and Village Street in Lisbon.

In September, 2011, ECD engaged the services of a professional photographer to capture various business and community images that will be used to **market the town as a place to live and work**. The project was funded through ECD's annual operating budget. Also in September, 2011, ECD held an on-line webinar to help the local business community learn how to use the Shop Lisbon business directory that is hosted on the municipal website. The goal of the directory, which is funded through ECD's annual operating budget, is to **promote the goods and services available in Lisbon to local and regional consumers.** On their own directory listing, businesses can post everything from hours of operation and product/ service descriptions to coupons, photos and videos. Customers can also sign up to 'follow' their favorite local businesses by e-mail. At year end, the effort to sign up more local businesses to the directory continued.

In October, 2011, ECD began work with the Town Manager to facilitate **a strategic planning process** with the Town Council. The Council's goal in the process was to review the town's stated goals and objectives as articulated in its comprehensive plan, and to discuss the town's current strengths, weaknesses, opportunities and challenges as a way of informing their upcoming budget deliberations. The work continued over several workshop sessions during the fourth quarter of 2011.

In November of 2011, **Harvey Metals** purchased a 20,000 SF industrial building located on Capital Ave. The building was formerly owned by Eastland Shoe and most recently occupied by Grow Tech. The company is an innovative scrap metal business with a particular focus on the recycling of the precious metals found in auto parts like catalytic converters. Harvey Metals began operations in Lisbon Falls in December, 2011 and shortly after added three new jobs to accommodate the growth in their business. In June of 2012, the Town Council approved a commercial loan to the company from the town's Revolving Loan Fund program to support further expansion of the business.

In December of 2011, students from Bates College's Environmental Studies program completed work with the Lisbon Trails Commission and ECD to develop **interpretive signage prototypes** for the planned Androscoggin River trail. Through an arrangement between Bates faculty and ECD, the students provide free assistance to the town in exchange for the real world experience they gain from working with the town's residents and government. The prototypes focus on the ecology of the river while weaving in stories of the town's history from its earliest origins to the present. The students coordinated with other regional groups, including the Androscoggin Land Trust and its Androscoggin Greenway project, to achieve a consistent look and feel with other interpretive signage planned for the region.

Also in December, 2011, ECD worked with the Lisbon Promotions Committee and local businesses to arrange a punch card promotion in conjunction with the annual **Very Merry Main Street** event. A gift basket of local products and services was presented to the attendee that had their card punched by participating businesses. The event also included a tree lighting complete with caroling and refreshments and a Santa's Village at the MTM Center.

In January, 2012, ECD assisted the Town Manager in developing a request for proposal for **land use planning services** to support the Planning Board's ongoing case work and its long-term planning processes. Shortly after, consultants from Wright-Pierce of Topsham were engaged to provide the services, and by March, ECD worked with the Planning Board chairman

and planner Amanda Bunker on the initial design of a Route 196 corridor master planning process that will begin in earnest in 2012-2013.

In February and March, 2012, ECD led a series of meetings with staff from our federal congressional delegation, the Economic Development Administration, Rural Development, and the Maine Historic Preservation Commission to discuss possible public assistance to **the redevelopment of the Worumbo Mill**. Also participating in the meetings were representatives of the mill's owner, Miller Industries. Throughout 2011-2012, it became clearer that redevelopment of the historic mill would be a challenge for private developers to accomplish without the use of certain public programs like historic tax credits. The meetings held in the first quarter were intended to better inform local stakeholders as to the most effective methods of mill redevelopment.

In March of 2012, sad news came with the closure of **Graziano's Casa Mia**, the Village Street eatery that became a local landmark over 43 years. All in Lisbon owe a great debt to the Graziano family for all they did to make Lisbon a destination for all who enjoyed the great food and great company that the restaurant offered for generations. As 2011-2012 came to a close, ECD was working with prospective developers with an interest in the highly trafficked site on Rt. 196, with the hope that the location's next iteration will have a comparable impact on the town's future. Even if this goal is realized, Graziano's Casa Mia will not soon be forgotten. All of us offer our sincere thanks to the Graziano family for their vast contributions to Lisbon, and wish them the very best in their future endeavors.

In March, 2012, ECD began work with the University of Maine School of Economics and consultants from Eaton-Peabody Consulting Group of Augusta to conduct an **analysis of the local retail market** and determine in which retail sectors Lisbon can grow. This work, which was funded through ECD's annual operating budget, included the review and input of a focus group comprised of local businesses, and continued through the balance of the 2011-2012 fiscal year. The end result of the project is quantifiable data on retail growth sectors in Lisbon, and series of recommendations from the consultant on a retail business attraction strategy.

Also beginning in March, 2012, ECD provided assistance to project engineers to advance a proposed site/subdivision plan for Kelly Park on Route 196 in Lisbon. In May, 2012 the Planning Board approved a **four lot, 49 acre subdivision plan for the proposal commercial park**, and site work began in earnest as 2011-2012 came to a close. The beautifully-appointed park entry, complete with infrastructure, portends a bright future for the site and the kind of private sector investment and job creation that has not been seen in Lisbon in recent years.

In May, 2012, ECD also provided assistance to Swift Demolition in obtaining Planning Board approval for a demolition permit for **the former Knight-Celotex mill** on Route 196 in Lisbon Falls. The demolition of the obsolete mill buildings is the first phase in Swift's plans for the riverside site, which will commence in 2012-2013. Once the buildings are down the site will be cleaned up and prepared for redevelopment. ECD continues to work with representatives of Swift as they progress through their project, and expects to play a role in attracting an end user to the site.

Also in May, 2012, ECD began the process of writing and submitting a **grant application to the CDBG Public Service program** to support the establishment of a jobs/career program at the Lisbon Library. Across the country, libraries are increasingly becoming a resource for people who are searching for jobs, career development and even starting their own business, and this has been the case in Lisbon as well. The grant would support the purchase of notebook computers that would be dedicated for use in a series of job/career workshops that would be established at the library, and consultant services that would help start the program in the first year. In June, the town received word that it had been invited to proceed to the project development phase, which is the first step in securing the grant award.

**Other notable events** in 2011-2012 included the arrival of Restorations Home Remodeling, a construction firm, to a new location on Capital Ave., and the grand openings of two new retail stores, the outstanding Benoit's Bakery and Wine Cellar on Rt. 196 in Lisbon, and Maine Vintage & Consignment, a new spin-off from Kris Cornish's Drapeau's Costumes of Maine on Main Street in Lisbon Falls. Also arriving in 2011-2012 was Escape Salon & Day Spa to a new location on Rt. 196 in Lisbon.

As 2011-2012 drew to a close, ECD worked with the Town Council and the Brunswick Housing Authority to **name** two common areas in the new Campus Commons senior housing project on the site of the former Lisbon Falls High School on Campus Avenue. As a result of this effort, when Campus Commons opens officially in September 2012, rooms will be named as tributes to Richard Ladner and Amel Kiszonak, two leaders who contributed greatly to Lisbon in so many ways throughout their lives.

It was a great privilege to work with you in 2011-2012, and I look forward to our continued collaboration and even brighter days in 2012-2013.

### Fire Department

#### P. Sean Galipeau, Fire Chief

The Lisbon Fire Department responded to 253 calls for service in 2012. This is a decrease over the previous year by 38 calls. Our busiest day of the week being Fridays between the hours of noon and six in the afternoon.

On January 22, we responded to a fully involved trailer fire in Grimmel's Trailer Park. The occupant made the call to the Communications Center that his home was on fire, but unfortunately never made it out of the structure. We recovered his remains about two hours later when we were overhauling the bedroom area. I have to mention that the amount of belongings that this individual had in the structure was a direct result to him not making it out of the building. Please keep in mind that if you are a collector and you do not keep walkways and egress areas open, you will have a hard time exiting in an emergency situation. Please also take into consideration that emergency personnel may not be able to rescue you if there is that much material in your home. Not to mention that whatever you collect may be fire load and will also hamper any rescue attempts. This fire came in just a short ten months after the Summer Street tragedy in 2011. The Town of Lisbon had gone over fifty years without a fire fatality and then we experienced three within a ten month period.

We also responded to a working house fire on Forbes Road where the aggressive search crew recovered the family dog and pulled him out to safety. Plus we responded to a well involved single family home fire on Frost Hill Avenue that was caused by discarding hot materials into a common plastic trash bag and placing it in the plastic garbage can in an enclosed garage. I have to stress to taxpayers that if you keep your trash in your attached garage, please use metal cans with tight closing covers. This will choke out most fires that will start in your trash and possibly save your home.

On a mutual aid fire in the city of Lewiston, Firefighter Cory Chase pulled a cat to safety from a forth story window to the tip of the ladder truck. The on looking crowd erupted in cheers as Firefighter Chase carried the little helpless cat to safety.

The department has had quite a change in the cadre of officers this last year. Those taking office were; Deputy Chief Robert Robitaille, Captain JP Adams, Lieutenant Tom Wrobel, Lieutenant Dennis Cox, Lieutenant Nate LeClair and Lieutenant Kyle Galarneau. We also experienced for the first time in the history of the department a transfer of an officer from one company to another when Lieutenant Eric Watson moved to the falls district.

Along the training line, Congratulations to Firefighters, Avery St. Jean, Bailey Keating, Nehemiah Chase, Derek Lycette, and Jimmy Berube for graduating from the Tri County Regional Firefighter One and Two programs. The Tri

County Program Manager is Captain JP Adams from the Lisbon Falls Fire Company. Last year he was awarded the first ever State of Maine Fire Instructor of the Year award at a conference in Augusta. His dedication to training and the fire service is paramount and is an asset to our department.

Moxie Days hit us with a bang. Family fun night on Friday evening was held at the high school again with us scheduled to have a working extrication demonstration with life flight landing, taking the victim away then returning for a static display. Unfortunately, Brunswick had a fire and took most of our department out of town so we static displayed with the mutual aid companies and still landed life flight.

The banquet was held this year with the honors of Fire Officer of the Year for each company being awarded. Lieutenant Tom Pelletier for E.T Smith Hose Company and Captain JP Adams of Lisbon Falls Fire Company were the recipients. Firefighter of the year went to Chad Pelletier from E.T Smith and Ryan Strout for Lisbon Falls. This years Chief's Excellent Award went to Firefighter Jim Beals for his commitment to the Lisbon Fire Department.

I want to give a Special thank you to Captain JR Wallace, Jr. who has been an Officer for me for a long time and has always been there whenever I need him no matter what, despite any differences that we may have had. JR chose to step down after twelve years of service to the Lisbon Fire Department. His dedication will be missed.

We added three new members to the department: Jason Leduc, Heath Ouellette, and Jared Blake. Jason and Heath will be obtaining their firefighter training from the Tri-County program this upcoming year while Jared is a past graduate of the program. It is nice to get a new member who has had some experience.

In 2012, we worked with the Lisbon School Department to give students of Lisbon the option of taking the firefighter program offered at Brunswick Region 10. Five of our Juniors stepped up and took the program, those being, Junior Firefighters Elliot Manocal, David Moore, Ryan Robitaille, Albert Cone, and Bailey Galipeau.

The Lisbon Fire Color Guard presented colors at New Hampshire Motor Speedway for the Whelen Modified Tour Race. This is the third season we have taken part at the speedway. We are in hopes to present at either a Nationwide or Sprint Cup event this upcoming season.

Thank you to the officers and members for their dedication also. The amount of time that theses members put in for this town is unbelievable. From the officers and their collateral duties to the engineers assuring that the apparatus is ready to go at anytime. Each and every minute is time away from their personal life and families. Please, as a taxpayer within this community stop in and say thank you to the members of the department. The fire calls are only a fraction of the time they dedicate. Other time is spent on grant writing, the truck committees, color guard, training, hose testing, fire prevention, and moxie days to name a few. This is done for a minimal stipend; we as taxpayer's surly benefit immensely by the member's dedication and commitment.

The department would like to extend an invitation to anyone interested in joining the Lisbon Fire Department who lives in the Village Street area, to please pick up an application. We have had a manpower shortage at the E. T. Smith Hose Company station for over a year now.

### General Assistance

#### Judy Hardy-Goddard, Deputy Welfare Director

Our General Assistance program is available to help those eligible meet their basic needs during difficult financial times when they are unable to provide for themselves and their families. General Assistance provides "a specific amount and type of aid" for defined needs during a limited period of time and is not intended to be a continuing 'grant-in-aid' or 'categorical' welfare program per Title 22 MRSA Section 4301(5).

Applicants must provide verification of their income and expenses and if unable to work, medical documentation substantiating their work limitations. Applicants are required to seek work if physically able and/or to apply for assistance from any other program that may be available to them. A determination of eligibility is made for a thirty-day period based on anticipated earnings.

You may call 353-3000 Extension 124 for an appointment. Applications are available at the Town Hall.

The General Assistance office also assists with filling out tax and rent refund, Medicaid Part D, homestead exemptions, VA disability benefits, and other various forms. We also offer information on many different programs, including low-cost housing, nursing care, and medical or dental treatment. We have updated information on most of the programs and resources in our community. We work closely with local agencies to find the necessary assistance to help our clients.

The General Assistance office assists Lisbon seniors with resource information, health insurance counseling, completing applications and referrals. We continue to hold free dinners (with BINGO) on the first Friday of each month at Woodside Apartments. This event, which continue to still grow, offers a lovely meal tailored to your requests when possible. Past menus have included ham dinners, fish and corn chowders, and barbeques in the summer to name a few. All seniors are welcome.

The Thanksgiving Dinner, held in the Gymnasium at the Lisbon Falls Baptist Church, was a success thanks to the many volunteers who helped and local residents who attended. Several meals were delivered to shut-ins, as well.

The annual Giving Tree Program assisted many families and over 250 children. We could not have sponsored this program without the generous donations from the local businesses, Lisbon citizens, LACO, and our local churches. We appreciated all the volunteer hours put into this project and the joy that is given to the children is truly rewarding and makes this project such a meaningful event.

I cannot thank everyone enough for their support and I look forward to working together again with many of you as we move forward into another successful year.

### Health Officer

#### Cristy Bourget, Local Health Officer

(207) 333-6604

In 2012, Jan Stenberg, Local Health Inspector, retired and we wish her a very happy retirement.

After Jan's retirement the Town of Lisbon was looking for a cost effective way to continue to provide a high level of service for restaurant, lodging, and complaint based health inspections. With the new State requirements, a Standardized Inspector is necessary for the local administration of the State Health Inspection Program. Becoming certified as a Standardized Inspector requires substantial training and testing for State approval. To meet this need, the Town of Lisbon contracted with the City of Auburn to complete the inspections and under that arrangement Cristy Bourget, a resident of Lisbon, is now serving as the new Local Health Inspector. Cristy is a State of Maine, Standardized Health Inspector and has been doing inspections in the Auburn/Lewiston area for the past 14 years. She has a reputation for being helpful, knowledgeable, and very responsive to the needs of residents and businesses.

The Town of Lisbon has updated their local ordinance to reference the State requirements for restaurant inspections and administration rules by adopting the State of Maine Food Code and the Administration & Enforcement of Establishments Licensed by the Health Inspection Program, which can be found at <a href="http://www.maine.gov/dhhs/mecdc/environmental-health/el/">http://www.maine.gov/dhhs/mecdc/environmental-health/el/</a>

Cristy responded effectively to a number of complaints in 2012. Our annual licensing inspections will be completed in early 2013. A more detailed report on those efforts will be available in next year's report. This service is going well and the City of Auburn would like to continue the arrangement for the next year as well.

An additional resource is the Maine Center for Disease Control — Public Health Liaison. Jamie Paul, is the Western Maine Public Health Liaison and Jamie can be reached by phone at 795-4302 or e-mail at <a href="maine.liaison">Jamie.L.Paul@maine.gov</a>

For more information regarding public health, check out the following websites: <a href="https://www.mainepublichealth.gov">www.maine.gov/dhs/boh</a>

Approximately 40 food establishments were inspected in 2012. Moxie Day food vendors were inspected on site Moxie Day.

The Library Department completed a "record breaking" year July 2011-June 2012. More than 35,000 customers came through the doors of the library last year seeking a variety of services. That is an amazing statistic considering that our community has about 9,000 residents! Many Lisbon citizens come to the library on a daily basis for computer use, photocopies, use of the Wi-Fi service or just to meet with friends and family. Patrons continued to rely on the library for "traditional services" that include availability of bestsellers, adult and children's DVD's, and children's pre-school and Summer Reading programs. Residents, also, relied on the library for their computer and new technology needs. The three public computers clocked 5,186 hours of computer time by Lisbon residents. The need continued to be for on-line job searches, social networking with family and friends and taking on-line classes. This service is up by 6% from the previous year. This is an important service to our community and the Library Department is committed in its effort to assess and keep up with new technology and equipment to meet the needs of Lisbon citizens. Our Wi-Fi network served our residents well last year. It proved to be a convenient service for residents to use their personal computer devices, in the library or to and from work or for vacationers visiting our town.

The need for library services did not show any decreases last year. Many had predicted the decline and need for public libraries due to the ever changing technology that offers patrons the ease and affordability of E-Readers, I Pads, Tablets and other personal devices. I am happy and proud to let our community know that this has not happened at the Lisbon Library. We have seen an increase in services. Technology has changed the way we deliver some services to the community but not the need.

Our patrons continued to rely on the library for "traditional library services" last year. Adult patrons checked out 29,722 bestsellers and new nonfiction books along with 3,117 magazines. The children checked out and enjoyed 20,174 books last year. The popularity of our DVD/Video collection continued to grow with an 8% increase from the previous year. It is affordable family entertainment that brought 6,634 movies into the homes of our Lisbon citizens.

The Library Department report would not be complete without an update on our Children's Services. They make up a big part of the services we offer and are very important to the community. Our pre-school weekly program for ages 18 months to age 5 continues to be popular and brought 1,489 children to the library last year. Our Summer Reading Program was busy and successful. Our Town of Lisbon theme was popular and informative. The children learned about the history of our community. There were 164 participants and they read 1,657 books in a five week period. The library thanks the following Lisbon businesses who generously let the library display a poster in their window. They allowed the summer readers and their parents to come into their business and record the number for the children to earn prizes: Aubuchon Hardware, Benoit's Bakery, Down East Energy, Drapeau's Costume Shop, Dube Music Shop, Food City, Getty Station, Good Times Lanes, Hairs Too You, Kennebec Corner Store, Lisbon Farm Market, Lisbon Community Credit Union, Lisbon Hair Studio, M & T Pools, Maine Art Glass Studio, Napa Auto Parts, Spiller's, Sumthin' Fishy and Tangles. The Library appreciates their generosity. The Children's Room still hosts the weekly "Babies Group." Families find the library to be a safe, educational, and convenient place to meet.

The library building continues to serve the community well. The new "Mitsubishi" air conditioning/heating units were installed on the first floor of the library in July. They are efficient and quiet. The patrons and staff enjoyed the cool place to visit and work. These units also transition to efficient heaters. The Children's Garden was a very popular spot for children and their families this past summer. The Tupper family continued to maintain the garden while Verla Brooks and her team cut back some bushes and trees. We thank them for their help in maintaining this wonderful garden.

Inter Library Loan Services (ILL) have become popular with our patrons. There was a 3% increase in ILL Services last fiscal year. More than 1,100 items came and went with this program. Patrons enjoy the ease of getting books, movies, and audio materials from libraries as far as California and as close as Lewiston/Auburn. The Maine Legislature's extra funding for this statewide program last year has allowed the Lisbon Library to add an additional

delivery day. The value of this gift is about \$900. It has made a significant difference in the number of items we can get for Lisbon residents and the timely delivery for research and pleasure reading materials.

Our staff of 6 and our summer intern worked on various projects throughout the year. Cynthia Medlen who catalogues all new materials also mended 96 books for reuse and saved \$2,009 for the purchase of new materials. Anita Marenius maintained our Inter Library Loan services to reflect the additional delivery day and the 3% increase. She also assisted the Director in the Overdue Procedures to ensure the rate of on-time returns is successful and keep the rate of lost materials to a minimum. Jo-Jean Keller, Mary and Renata Schalk did a great job with all aspects of Children's Services. Their enthusiasm and hard work is reflected in the number of children who visit the library and take part in our programs. The Senter's Grant that brought \$2,100 to the library enabled us to hire a summer intern. Local teen, Robert Dall, has worked well with our patrons and has become a valued member of our staff. Grant funds will keep Robert on staff until the end of October 2012. I was diligent in my efforts to oversee services and staff and assess patron needs to ensure that Lisbon residents received the best library services that funds and staff could provide in these hard economic times. The Library Governing Board and I met every month to review and update policies and procedures.

The Library Coverning Board, staff and Friends Of The Library will continue to work hard to provide library services that reflect patron and taxpayer needs. We will seek grants, do fundraisers, and work with other town departments, organizations, and other libraries. This will ensure that the Lisbon Library provides services that meet current and future needs of all Lisbon citizens.

## Parks Department

Verla Brooks, Parks Director

37 Cotton Road, Lisbon, Maine, 04250

**Telephone 353-9075** 

vbrooks@lisbonme.org

The Parks Department experienced many new changes and challenges this past year due to department restructuring. Since 1983, the duties and responsibilities of the Parks Department have been to develop and manage 337 acres of Beaver Park as a family day-use park and registered tree farm. Plus, maintain 30 acres of Summer Street Park as a neighborhood park. Park staff consisted of a full-time Ranger Position and a part-time Seasonal Laborer Position. As a result of the department restructuring the Parks Department became responsible for the care and maintenance of 24 Town Gardens and 30 mowing areas including lawns and athletic fields. Two full-time seasonal laborer positions were added to the staff to perform lawn care duties. Fifteen volunteers from the Green Thumb Gang continue to donate their time and garden expertise caring for adopted garden spots and five new members joined in the fun this summer. Their commitment, knowledge and care of the gardens have been greatly appreciated. Not all the gardens are adopted, so the park staff is responsible for the remaining gardens. The added work duties fit well within the Parks Department and create welcomed challenges and learning experiences.

As always, Lisbon's best kept secret 'Beaver Park' continues to be a well utilized family day-use park. Beaver Park provides Lisbon residents and non-residents the opportunity to enjoy various year-round outdoor activities. Opening day of fishing draws people from near and far to fish the stocked ponds. The daily fish limit is two fish per person and State of Maine Fishing Laws are enforced. During hot summer weather the ponds offer a cool retreat for swimmers. The park **does not** staff a lifeguard, thus parents are required to supervise their children. An ice-skating area is maintained on the Middle Pond during the winter, providing the ice conditions are naturally good. The park does not have the capability of flooding the skating area, but keeps the snow removed as long as the ice conditions permit snow removal. Seven to ten miles of hiking trails are groomed for traditional cross-country skiing and snowshoeing. The seven acre field is kept mowed and used for different field activities. The field has two regulation size softball diamonds. The one-mile fitness trail offers group exercise stations along the trail. The park now has 2 covered picnic

shelters which are used for group gatherings throughout the year. A self-guided wildflower Trail continues to be very popular during the spring and summer months.

Programs and group activities which have become a tradition at Beaver Park include:

- Guided Wildflower Walks.
- Tree Identification Workshops.
- The Lisbon boys and girls cross-country teams continue to use the park trails for their running course and annual meet. The area christian schools have joined in the fun and now use the park trails for their practices and home meets.
- The Annual Beaver Park Fishing Derby hosted by the Lisbon Conservation Commission and Beaver Park is looked forward to by eager anglers each May. This is a community wide event with area merchants and individual citizens donating funds and gift prizes to support the derby. Without their financial support, the fishing derby would not be possible. The derby has definitely become a family tradition. Parents who participated in past derbies as children now bring their children to experience the fun they had as a child fishing at Beaver Park.
- Christmas Wreath Classes have become a 28 year tradition for many families and friends coming
  together each year to make their Christmas wreath. Nine classes of fifteen or more students are
  taught by Verla. Wreaths are also made by Verla and sold to the public. The funds from the
  wreaths are used to complete projects at Beaver Park or purchase park equipment.
- The newly formed Eager Beaver Knitting Group started meeting at the Lone Pine Lodge in May every Wednesday from 6:00 P.M. to 8:30 P.M.
- Lisbon and surrounding community schools continue to use Beaver Park for outdoor educational programs and field trips.

To facilitate addition of the garden tools and mowing equipment construction of a 16' x 20' shed was started and will be completed by the next fiscal year. The structure will be built by Verla and park volunteers, using lumber from trees harvested at Beaver Park.

Summer Street Park continues to be utilized as a neighborhood park. This 30 acre park provides a network of hiking trails which lead to the Little Androscoggin River in Lisbon Falls.

A very big THANK YOU to the following volunteers who have denoted their valuable time and expertise to managing the many town gardens: Anita Marenuius, Bob Kazimer, Barbara Kazimer, Faye Brown, Julie-Ann Baumer, Noyce Lawrence, Dale Lawrence, Sherry Voigt, Shelli Voigt, Janice Browning, Pat Regan, Diane Fournier, Davis Landscaping, Breton Family, Pine Knoll Landscaping, Riverbend Landscaping anonymous volunteer, Girl Scout Troop 1629, Coleen Huntington, and Michelle Barley.

All Lisbon residents and non-residents are welcome to enjoy the natural beauty which abounds our parks and gardens. People often forget their own backyard can offer peace and solitude so often lost in today's hectic lifestyle. Lisbon is very fortunate having an abundance of park land that offers a wealth of nature's beauty and solitude. Take a moment to enjoy a walk at Beaver Park or along the Paper Mill Trail. Rest on a bench in one of the many gardens and simply enjoy the view.

User Fees at Beaver Park are still at a low rate to allow a very affordable family outing. Fees are as follows:

Daily fee for Lisbon Residents \$ 1.00 per person
Yearly family passes for Lisbon Residents \$ 15.00 per family
Daily fee for non-residents of Lisbon \$ 3.00 per person
Yearly family pass for non-residents of Lisbon \$ 30.00 per family

Healthy Parks—Healthy People Enjoy your Parks!

Park family passes are valid for one year from April 1 to March 31. The passes may be purchased at Beaver Park from the Park Ranger. Beaver Park trail maps may be printed from the Town of Lisbon web-site - lisbonme.org.

Gazebo Park In Lisbon Falls

### Public Works

#### E. Ryan Leighton, Public Works Director/Town Engineer

In addition to Public Works, Sewer and Solid Waste management, the Public Works Director/Town Engineer is also responsible for many aspects of local government; including major project planning, construction management, town building maintenance and capital planning, technology infrastructure and maintenance.

#### PUBLIC WORKS DEPARTMENT

July being the beginning of the new fiscal year is always busy with new projects being started but it is also the Moxie Festival month and Public Works has a significant involvement behind the scenes during the week and all weekend long. This year Public Works spent more time than in past years with the set up and take down as the Festival continues to grow and expand. Also in July we completed a drainage project at the corner of Andrea and Bartholomew Streets as well as drainage improvements on Edgecomb Road with the installation of approximately 400 feet of pipe as well as nearly 200 feet on Wing Street. Finally in August we expanded the decorative sidewalk lights on Main Street as well as repaired the sidewalk in front of The Sausage Kitchen. September was highlighted by a brief visit with Hurricane Irene resulting in brush and limb clean up. The end of October we received 5-6" of snow on the 29th. Our next snow storm was on Nov. 23rd when we received another 8-10" of snow. The last two weeks of the November we worked around Town hanging Christmas decorations and lights. With temperatures warm for most of the month we were able to do many projects that are normally early fall activities. December brought warmer than usual temperatures as well allowing for additional ditching and grading to be accomplished. Based on the mild winter we were able to transition to summer operations earlier than normal. Along with the normal spring cleanup work we had to contend with an early June flood which washed out a portion of the Ferry Road, closed several other roads for a short period of time, and ultimately damaged the Upper Dam on the Sabattus River just west of Webster Road. At this time we are still evaluating options with respect to the long term future of the dam. Finally, throughout the year Public Works assists every other Town Department including the School on a wide variety of projects.

#### **SEWER DEPARTMENT**

The Treatment Plant continues to meet all environmental permitting regulations and operational expectations. Additionally, the Department is responsible for 12 pump stations and approximately 35 miles of sewer mains. During the spring and early summer we focused on clearing our cross country sewer lines and marking the manholes to allow for easier annual inspections.

The past year has been very productive with interior and exterior improvements at the Treatment Plant as well as cleaning out and converting a cold storage building to a heated space providing a location to store our sewer cleaning truck and thereby freeing up workspace in our maintenance garage. We also upgraded operational equipment as well as repairing a number of sections of sewer mains throughout Town. Annual sewer cleaning was accomplished and the overall operation of the wastewater treatment process was improved resulting in a number of financial savings.

#### SOLID WASTE DEPARTMENT

2011-2012 Recy	cling Summary
Item	Tons
Cardboard	141.16
Steel	200.97
Sheetrock	47.86
Brush	248.82
House-Waste	2715.07
Antifreeze	405 Gal.
Fridge/AC	224 Units
Mixed Paper	102.52
Tires	9.07
Shingles	165.26
Compost	202.72
Fluorescents	10,484 ft.
Oil	1000 Gal.
News	89.04
Single Stream	87.88
Wood	324.34
OBW	299.69
T.V.s/Monitors	1,557 Ea.
Oil/Gas mix	385 Gal.

Lisbon's Recycling rate during this past year was 49.19%. The state of Maine average for 2010 was 38.7%. Keep it up Lisbon! We also want to remind the residents of Lisbon and Lisbon Falls that vehicle permits are required to use the Lisbon Transfer and Recycling Center. These annual permits are sold at the Town Office and will be valid from September 1st to August 31st of the following year.

In the fall, Public Works starts getting their winter sand. In between hauling our materials out of the facility, we assisted them with hauling in the sand from Durham. In the picture, you will notice our forklift loading a pallet of TV's and monitors on a truck. The truck is taking the materials to their facility in Auburn for recycling. E-Waste has done a good job of picking these materials up.

#### **SOLID WASTE CONTINUED**

<u>Income</u>		<u>2011</u>		2012
Permits	\$	27,165.00	\$	35,351.35
Metal	\$	31,005.00	\$	35,978.95
Paper	\$	14,059.06	\$	16,191.30
Cardboard	\$	17,433.08	\$	21,383.34
Newspaper	\$	8,262.64	\$	8,915.15
Tires	\$	1,250.00	\$	703.00
Yard Items	\$	18,293.50	\$	17,008.00
Universal Waste	\$	5,404.40	\$	2,634.50
Disposal Fees	\$	8,206.50	\$	11,183.25
Total	\$ 1	31,079.18	\$ 1	49,348.84

#### REGIONAL TRANSPORTATION PLANNING

The Public Works Director/Town Engineer serves as a voting member on the Androscoggin Transportation Resource Center Technical Committee. This agency is responsible for transportation planning and construction in the Lewiston, Auburn, Lisbon, Sabattus, metropolitan area. Generally projects associated with Route 196, Main Street, Route 9 and most recently Upland Road are funded as a result of the Town's involvement with this organization.

#### **LISBON TRAILS**

In August 2011, the Town received the necessary DEP permits for the Androscoggin River Trail. The rest of the year was focused on obtaining the required Army Corp of Engineer's permit. This process proved to be very slow and as of June 30, 2012 we have still not received final approval delaying the final design and ultimately the construction.

#### **TOWN BUILDINGS**

Major accomplishments in the past year include the replacement of the MTM Community Center Roof and replacement of the siding on the ET Smith Hose Company. Smaller projects included the replacement of flooring in two rooms at the Police Department, masonry repairs to the MTM Community Center gym prior to the roof installation, and installation of backflow preventers on the water services at the Town Buildings and Fire Stations as required by the Lisbon Water Department.

### Police Department

#### David Brooks, Chief of Police

The Police Department recorded 10,786 Calls for Service in FY'12. The year began with the department having its first experience with Bath Salts, and concluded with the new State Fireworks Law. Overall, another busy year for law enforcement services in our community.

Bath Salts have been a serious problem throughout our State, and in July '11, Governor LePage signed into law, legislation that made the sale or possession of Bath Salts illegal.

Burglaries and attempted burglaries increased 25% in FY'12. Larceny/Forgery/Fraud increased 5%. The 2011 annual Crime in Maine Report published by the Maine Department of Public Safety, reports that Lisbon has a crime rate of 18.43/1000 population, up from the 2011 figure of 12.06/1000. And a crime clearance rate of 32.53% which is slightly less than the previous year's clearance rate of 33.6%. Crime rate in Androscoggin County was 34.14 with Lewiston at 43.54 and Auburn at 55.18. Being as close as we are to those cities, we work hard to maintain a safe community in Lisbon. Statewide the crime rate was 27.51 and the clearance rate was 31.61%. Repeating what I have said in past reports, these Crime & Clearance Rates are based on the FBI's Uniform Crime Reporting System established in the 1970's. The numbers do not reflect drug violations, disorderly, domestic violence, sexual abuse and many other offences.

Domestic Disturbance incidents increased 30.4%. Numerous arrests were made from these incidents for Domestic Assault and the majority of the victims were the woman and children of the household. Disorderly Conduct/Loud Noise incidents increased 31.8%. These Domestic/Disorderly incidents are increasing at an alarming rate, and this department will continue to aggressively enforce the Domestic Violence Laws of our state.

There were a number of crimes committed in Lisbon that concluded with the criminals receiving long prison sentences. The assailant in a domestic violence case who stabbed his female companion is currently serving a fifteen (15) year prison term in the Maine State Prison. In another case that originated in Lisbon and was transferred to the Federal prosecutor, the criminal pled guilty to Production of Child Pornography and Possession of Child Pornography, one of his victims being a 4 yr old boy. That criminal is currently serving twenty-five (25) years in Federal prison, and when released will have fifteen (15) years of supervised release. A burglar who committed a residential burglary in Lisbon and was captured shortly afterwards, is now serving a three (3) year sentence in the state prison. Another burglar who had committed a number of residential and business burglaries in Lisbon, is currently serving eight (8) years in prison. These are just a few of the many investigations conducted by this department. These investigations consume hundreds of hours to thoroughly investigate, and then prosecute. It is not all done within a 60 minute time frame like all of the crime shows on TV.

All department officers attended training provided by the State Fire Marshal's Office on the state fireworks law. The department took a proactive approach by educating our citizens on the new law. There was much public confusion regarding what type of fireworks can or cannot be used; who can or cannot use them, and when and where can they be used. The Town Council reviewed the new state law and took the position to wait and see how it affected our community. It is anticipated that the Council will review this topic at a later date this year and may develop a stricter ordinance on the use of fireworks in Lisbon.

A good note is that Motor Vehicle Accidents decreased by 13.6% in FY'12 from 292 in FY'11 to 257 reported accidents. The department remains proactive regarding the enforcement of our state's Motor Vehicle Laws and received a number of Maine Bureau of Highway Safety grants in FY'12. Hopefully, with the combination of enforcement and education, our roadways in Lisbon are a safer place for all to travel. The department will continue to pursue grants pertaining to highway safety from the Maine Bureau of Highway Safety, and the Maine Department of Transportation.

Continuing on the grant topic; the department was awarded a grant from the 2011 Homeland Security Grant Program (HSGP) in the amount of \$97,242.00. This funding will be used to purchase two (2), twenty (20) channel radio consoles. These new consoles will replace the radio consoles currently in our Communications Center, one of which was brought over from the old PD on Main Street to this building in 2000. The console upgrade is anticipated to be completed in the fall of this year.

The police department participated in the National Take Back Initiatives this year. This initiative is a nationwide effort coordinated by the DEA to collect unwanted and unused prescription drugs. Maine leads the nation in pounds/capita collected.

Our cooperative agreements with the Maine Drug Enforcement Agency and the Department of Homeland Security expanded this fiscal year. Detective William Tapley has been assigned as our Resident MDEA Agent for some time, and now he has also been designated as the department's Task Force Officer for the Department of Homeland Security. There have been a number of cases that have been investigated collaboratively with Lisbon and federal agencies. The TFO designation allows for expanded sharing of resources that not only helps Lisbon, but our neighboring agencies as well.

The department continues to be as proactive as we can in other areas too. The LE2AD Program (Lisbon Education/ Employment & Delinquency Program) continued throughout the year with Coordinator Joanne Campbell maintaining a full allotment of clients. The program assists at-risk youths, ages 16-19, with the coordinator monitoring their education efforts, training and job placement. For more information on the LE2AD program, please contact Joanne Campbell at jcampbell@lisbonpd.com, or leave her a voice message at 353-3000 X 261. The Police Explorer Post #4250 remained active this year. This group is made up of young men and woman, age 14-20, that have expressed an interest in possibly pursuing a career in the criminal justice field. For more information about the Explorer program, or if you think you may be interested in becoming an Explorer, please contact either Sgt. Harry Moore at hmoore@lisbonpd.com or by phone at 353-3000 x 272, or contact School Resource Officer Renee Bernard at rbernard@lisbonschoolsme.org, rbernard@lisbonpd.com or leave a voice message at 353-3000 x 389. Also, students can visit SRO Bernard at her office in the High School. The Lisbon Volunteers in Police Service, VIPS, remains an active group continuing their Citizen Outreach Program. These folks make telephone contact with seniors and shut-ins during the week. VIPS members participate in other activities throughout the year, including Senior's Supper at Woodside Apartments, assisting with Moxie activities, adult leadership for the Explorers and other community functions. If you have questions, or may be interested in joining the department's VIPS, please contact the VIPS Coordinator, Tom Stanton, at tstanton@lisbonpd.com or leave him a voice message at 353-3000 x 366. The department will again be conducting a Citizens Police Academy. This is a one (1) evening/week, ten (10) week program that gives the participants a look inside the police department with classroom instruction and hands-on scenario training. All of the instructors are members of the department. If you have questions or may be interested in attending an upcoming CPA, please contact Sgt. Scott Stewart at sstewart@lisbonpd.com, leave a voice message at 353-3000 x 221, or you can contact VIPS coordinator Tom Stanton. Other community policing activities that have continued throughout the year are the Lisbon Community Policing Advisory Group, and the Huston Park/Pine Grove Park Community Group.

A topic that needs repeating again this year is that in FY'12 the police department had fourteen (14) full-time officers. Two (2) of those officers are School Resource Officers assigned to the High/Middle School Campus and the Community School. That assignment keeps them in our schools 75% of the year. Then the other 25% of the year they are available for the patrol schedule. The 2011 Crime in Maine publication I mentioned earlier in this report indicates that the full-time police officer staffing ratio of municipal police departments in Maine is 1.93 officers per 1000 population. With that ratio as a standard, Lisbon would be at 17.37 officers. Be it 17 or 18 full time officers, our department only has 14. From 2000 to 2007 the department had sixteen (16) full-time officers. We need to return to that level of no less than 16 officers. Our community's crime levels are increasing yearly; therefore for both the public's safety and the officer's safety, continuing to do more with less is a concern. Some people see Lisbon as a small town. They can continue to think that way; however, Lisbon is the 26th largest community in Maine according to the 2010 U.S. Census. With over 400 municipalities and townships in our state, being the 26th largest does not make us a "small town". We are next door to some of the highest crime areas in our state. And our proximity to other urban areas along with improved roads, access to and from is bringing more criminal activity to our community.

The men and women of the police department work very hard to maintain a safe community, and work towards improving the quality of life for all who work and live in Lisbon. From enforcement to proactive activities that include our youth and our seniors, we will continue to provide the best law enforcement service that we possibly can. We appreciate your support, especially from those citizens who believe it is incumbent upon them to assist in protecting the community.

## Recreation Department

#### Mark Stevens. Recreation Director

18 School Street Lisbon Falls, Maine 04252 (207) 353-2289 W (207) 712-3208 C

On May 1<sup>st</sup>, at the beginning of our summer and fall registration, our department implemented an online registration service. This Web based software known as Rec1 is used by many recreation department's around the country, however Lisbon was the first in Maine. Cherie Garnett (secretary) worked hard for many weeks before the implementation, setting up the cells needed in order to launch the program. The transition took some time to get use to. We took a "learn as you go" method since the software and tech support was located in Atlanta, Ga. This software allows our customers to register online with a variety of payment options including debit or credit cards. Once a customer chooses the desired program they are prompted to approve a "release and hold harmless" form and then a receipt is emailed. We are able to track in "real time" our participant numbers and are able to organize rosters and schedules immediately. Rec1 tools give us control over activities management and payment. The reporting platform allows us to choose between dozens of options including financial reports, activity reports, membership data, facilities and equipment reports. The cost of this program is 1% of our total revenue.

**Summer of 2012** was as close to perfect as we could have wished for. The weather was outstanding giving us a green light to hold all of our sports programs without having to reschedule or cancel.

Our Summer Sports Programs included:

Coed Softball: 6 teams from June to August

Sport Camps/Lessons: Basketball (25), Football (64), Field Hockey (8), Cheering Camp (23), Track and Field (42), Tennis (8), Soccer (34), Horseback Riding (6),

Our Summer Day Camps operated from MTM and LES 5 days a week beginning at the end of June and continue until the second week of August. Between the two camps, 170 campers enjoyed daily activities and trips to amusement parks, beaches and state parks. Weeks of planning and preparing for our summer days camps are necessary. Jamey Martin, our Assistant Director, oversees many of our summer programs. Our staff is made up of school employees, college students and high school students. We require our staff to participate in an online education program prior to the start of the program. Each staff member must score an 80% or higher in order to progress to the next series of assignments. Staff members are assigned courses on how to deal with bullying, conflict resolution, and more specific job related courses on how to implement games and activities.

**Highlights of our Summer Special Events:** 

**The Moxie 5K Road** was held on the second Saturday in July. This was our 18<sup>th</sup> year organizing the race. We had a record number of 550 runners. Equally impressive was the number of children that showed up for our pre-race Fun Run. Over 100 children received medals as they crossed the finish line. We collected \$9192.00, nearly \$4,000 more than what we expected.

**Show.** The Recreation Department resurrected the show after a 20-year hiatus. We were fortunate to have many of the same volunteers from the 5K race. Months of planning

and preparation paid off. With the help of local businesses, over 20 volunteers, our Rec Staff, and great weather, the show was a great success. The number of classic cars that attended exceeded all of our expectations! WQRY radio station broadcasted live throughout the event and announced the winners of each class. We raised \$5500.00 toward the purchase of a new van for our seniors and recreation programs.

Another new event for this summer was the free **Movies in the Park**. We transformed the MTM Pavilion into a giant movie screen and with our high powered projector and sound system we brought our park to life. We offered 3 showings this summer with the final movie attracting 230 people.

On the final day of our summer program the department hosted a **Lisbon's Got Talent** show on the MTM Pavilion. Kids had practiced all summer long to share their talents among their peers and families.

#### FALL/WINTER/SPRING

The Fall Programs included Before School (28), After School (58), Soccer (170,) Football (118), Field Hockey (18), Basketball In-House (112), Basketball Travel (42) and Swim (30).

The youth football program begins in 1st grade and continues up through middle school. Our  $1^{st}$ - $2^{nd}$ ,  $3^{rd}$ - $4^{th}$ , and  $5^{th}$ - $6^{th}$  graders play in the Central Maine Football League with several other towns. The  $5^{th}$ - $6^{th}$  grade team won the championships under the lights in Winthrop, beating Maranacook. Our  $7^{th}$ - $8^{th}$  grade team plays in the Pine Tree League and was undefeated this year. They beat Winthrop in the league championships held under the lights at Bates College.

Our field hockey team, grades  $6^{th}$ — $8^{th}$  plays in the Capital League with a full home and away schedule. New skills were learned and practiced during this past season.

The Soccer program is an in-house league for 5-12 year olds. We had 14 teams playing every Saturday morning at the Lisbon High School fields. The program runs for 7 weeks beginning in September and ending in October.

For Halloween, the Recreation Department always works with Lisbon D.A.R.E. offering an event for teens. This year we had Dinner and a Movie at the MTM Community Center. A Halloween themed movie was shown. Door prizes were given along with free popcorn from Mac's Kettle Korn and hot dogs, compliments of the Lisbon Police Department.

Our Youth Basketball program, grades K-6<sup>th</sup>, offered a variety of in-town and travel opportunities. The in-house and travel teams started in November and continued into February/March. The 14 in-house league teams played every Saturday at the Lisbon Community School gymnasium, with 107 players scoring. The 4 travel teams played a variety of teams from other towns at home and away games. Our K-1 players learned skills at 5 clinics offered in January and February.

During the winter and spring, swim lessons are offered through the YWCA in Lewiston. We take up to 30 participants, transporting them from Lisbon Community School.

Our After School Recreation program is held at the MTM Center 5 days a week throughout the school year. The children are bused from Lisbon Community School to MTM at 2:30 p.m. and are picked up by parents as late as

5:30 p.m. Our staff keeps the children busy with plenty of games and arts and crafts. The Before School Recreation program has is held at the Lisbon Community School at 7:00 a.m. and operates until school begins at 7:45. The children play quiet and active games.

Our Fitness Center has an average of 150 to 200 members per month. We have 3 rooms dedicated to cardio and weight equipment. We have large screen TVs and carpet in each of the cardio rooms. Our Fitness Center provides a great service for those who don't have the time or the means to travel to larger fitness facilities. We charge a nominal \$10.00 per month. We offer the services of a personal trainer for a small fee to all of our members. We also offer Aerobics and Zumba classes, and for those who are a bit older, we offer a Fit Forever classes. We average 20 participants in our fitness classes.

Aline Strout, our seniors' coordinator, organized a 7 day, 6 night guided tour trip to Washington DC. Forty-eight people enjoyed dining and daily excursions to historic sites including several war memorials and the Smithsonian museum. Aline works with volunteers to coordinate cribbage tournaments (25), luncheons (80), and other special events and trips. Trips offered in 2012 include: A Boston Harbor Cruise, Cabbage Island Clam Bake, Fryeburg Fair, and Dew Animal Kingdom. Additionally, our seniors offered an Election Day Café. They served breakfast, lunch and dinner at the MTM Center for a small fee. The goal was to encourage more people to vote and to also raise money for a van.

In closing, providing recreation services is a business of constantly monitoring and evaluating trends, needs and interests. Our mission is to determine what the needs and interests of the community are and to find creative ways to provide them. Our new summer events are an example of this.

The Lisbon Recreation Department, as well as the Recreation Committee and the MTM Board, strive to bring the best opportunities we can to our town. We encourage suggestions and ideas on how we can improve our services. We are proud to serve children, families, and the entire Lisbon Community.

#### Independent Auditor's Report

Town Council
Town of Lisbon, Maine

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Lisbon, Maine as of and for the year ended June 30, 2012, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Lisbon, Maine's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

Management has not included the Water Department Fund in the Town of Lisbon, Maine's, financial statements. Accounting principles generally accepted in the United States of America require the Water Department Fund to be presented as a major enterprise fund and financial information about the Water Department Fund to be part of the business-type activities, thus increasing that activity's assets, liabilities, revenues, and expenses, and changing its net assets. The amount by which this departure would affect the assets, liabilities, net assets, revenues, and expenses of the business-type activities and the omitted major fund is not reasonably determinable. The Water Department is accounted for separately, using a calendar year end, and has a separate audit report issued as of December 31<sup>st</sup> each year. It should be noted that the Town has issued certain bonds on behalf of the Water Department and this debt is reflected in the separate Water Department financial statements (see footnote on page 28).

In our opinion, because of the omission of the Water Department Fund, as discussed above, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the Water Department Fund of the Town of Lisbon, Maine, as of June 30, 2012, or the changes in financial position or cash flows thereof for the year then ended.

In addition, in our opinion, except for the effects of not including financial information for the Water Department Fund as a business-type activity, as described above, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Lisbon, Maine, as of June 30, 2012, the respective changes in financial position and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Town Council Page 2

In accordance with Government Auditing Standards, we have also issued a report dated November 9, 2012, on our consideration of the Town of Lisbon, Maine's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Lisbon, Maine's financial statements as a whole. The combining and individual fund financial statements and schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

November 9, 2012

Rungen Unsten Owellette

### TOWN OF LISBON, MAINE Notes to Basic Financial Statements, Continued

#### III. DETAILED NOTES ON ALL FUNDS, CONTINUED

#### F. Long-term Debt

#### Changes in Long-term Liabilities

Long-term liability activity for the year ended June 30, 2012 was as follows:

	Beginning <u>balance</u>	Additions	Reductions	Ending balance	Due within one year
Governmental activities:					
General obligation debt	\$ 13,511,555	270,000	1,130,523	12,651,032	1,163,664
Capital leases	277,185	31,150	146,039	162,296	104,761
Compensated absences	633,039		59,250	573,789	
Total governmental activity	,				
_long-term liabilities	\$ 14,421,779	301,150	1,335,812	13,387,117	1,268,425

#### **Bonds and Notes Payable**

General Obligation Bonds. The Town issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for general government activities. These bonds are expected to be repaid from the general fund. General obligation bonds are direct obligations and pledge the full faith and credit of the Town. These bonds are issued as serial bonds, generally with equal amounts of principal maturing each year. General obligation bonds currently outstanding are as follows:

	Date of <u>Issue</u>	Original amount issued	Date of maturity	Interest <u>rate</u>	<u>Balance</u>
Bonds and notes payable:					
Governmental activities:					
1998 Intermediary relending loan	July 2000	\$ -	July 2026	1.00%	294,228
2002 Capital Improvement	Oct. 2002	1,330,000	Nov. 2012	2.50-3.45%	151,837
2004 Town Bond	May 2004	12,899,710	Nov. 2024	4.41%	8,384,815
2005 Town Bond .	May 2005	368,000	Nov. 2020	1.50-3.70%	249,967
2005 Sewer Bond	Aug. 2004	350,000	Apr. 2024	1.93%	210,000
2005 Sewer Bond	Oct. 2005	500,000	Oct. 2025	1.43%	350,000
2006 Town Bond	Oct. 2006	540,000	Nov. 2021	1.8-6.25%	360,000
2009 Town Bond	May 2009	1,310,855	Nov. 2019	2.08-5.58%	1,048,685
2010 Town Bond	May 2010	1,070,000	Nov. 2030	2.06-5.56%	1,016,500
2011 School QSCB Bond	July 2010	350,000	July 2020	5.28%	315,000
2011 Town Bond	Oct. 2011	270,000	Nov. 2021	0.50-5.50%	270,000

Total bonds and notes payable \$ 12,651,032

The Town also issued three bonds during 2005, 2006 and 2010 in the amounts of \$3,000,000, \$393,000 and \$970,000 respectively, on behalf of the Lisbon Water Department. These bonds are carried on the Water Department's financial statements as a liability of that Department. The Water Department issues separate financial statements which are not included in the financial statements of the Town. These bonds mature in 2024, 2025 and 2030, and carry interest rates of 2.05%, 3.0-5.0% and 2.06-5.56%. Balances at June 30, 2012 are \$2,037,766, \$275,100, and \$921,500, respectively.

#### III. DETAILED NOTES ON ALL FUNDS, CONTINUED

#### F. Long-term Debt, continued

The annual debt service requirements to amortize bonds and notes payable are as follows:

75
80
153
95
253
26
354
63
351
ī

Statutory Debt Limit - In accordance with 30 MRSA, Section 5061, as amended, no municipality shall incur debt for specified purposes in excess of certain percentages of state valuation of such municipality. Additionally, no municipality shall incur debt in the aggregate in excess of 15% of its State assessed valuation. At June 30, 2012, the Town's outstanding debt did not exceed these limits.

State Reimbursement for Debt Service Expenditures - The State of Maine currently reimburses the Town for a portion of the financing costs of school buildings and school bus purchases. Continuation of such reimbursements is dependent upon continued appropriations by the state legislature.

Overlapping Debt - The Town's proportionate share of Androscoggin County's debt (determined by the percentage of the Town's State valuation to the county's state valuation) is not reported in the Town's financial statements. Debt service is included in the annual county assessment to the Town. At June 30, 2012, Androscoggin County had no outstanding debt.

Arbitrage Rebate - Pursuant to the Internal Revenue Code, municipalities issuing tax-exempt bonds or entering into note or lease obligations are required to perform an arbitrage rebate calculation upon the fifth anniversary of the obligation and to remit such rebate to the federal government, subject to certain exceptions. Since August 15, 1986, the effective date of these rules, the Town has not issued any debt that has not qualified under one of the specific exceptions to the arbitrage rebate calculation.

## Lisbon School Department

Richard Green, Superintendent of Schools

19 Gartley Street Lisbon, ME 04250 353-6711

Over the last four years the Lisbon School Department has maintained a focus on improvements in student achievement and the existing facilities and grounds. The most noticeable changes appear in the construction that has been completed at Lisbon High School and the buildings and grounds that surround our athletic fields. The most important changes, in my opinion, have occurred on the inside of the buildings and it is my pleasure to report on the efforts and plans that we have in place for the next several years.

Student achievement remains our top priority and the recent changes within the classrooms continue to have a positive impact on our students. The most common public reports are linked to our student achievement scores on the yearly state assessments. I often report on these results during our regular business meetings but I wanted to take a minute to provide you with a link to our webpage which provides information related to our No Child Left Behind (NCLB Report Card), Adequate Yearly Progress (AYP) and Teacher Quality Data. This information is available at: http://www.lisbonschoolsme.org/DRCard/Index.htm. Additional information is also available on the Maine Department of Education (DOE) webpage: http://www.maine.gov/education/mea/edmea.htm.

Public education continues to change, and in an effort to provide the best education for our students we will be spending our professional time next year focusing on developing a new vision and mission statement. Ultimately, this work will build a foundation for our system to rely upon and drive our conversations in a direction that focuses on doing what is best for our students while understanding that all students learn in different ways and in different time frames. This focus will help us make every effort to develop learning goals that will allow each of our students to succeed and prepare them for the future. Community involvement is essential in this process and there will be a community-based workshop scheduled in the fall that will allow input into this process.

Over the summer of 2011 there were a lot of changes to the internal structure of the Lisbon Community School (L.C.S.), Lisbon High School (L.H.S) and the Philip W. Sugg Middle School (P.W.S.). The work at L.C.S. included upgrades in the heating piping system. These changes allow for automatic management of the two pumps which will improve efficiency of the heating system. The installation of a new boiler system at P.W.S. allowed us to convert over to Natural Gas. The boiler at L.H.S. was also converted to Natural Gas which should allow for long term savings in our heating costs. The Lisbon School Department has developed a 5 year facilities and grounds plan through the recommendations of our current Facilities Committee. In an effort to share the positive work that has been done and our goals, we will be coordinating a public informational meeting that will include tours and an overview of the future plans for the three schools and grounds. This meeting will be held in connection with the mission and vision workshop that is tentatively scheduled for this fall.

As we begin the new school year, I look forward to the many challenges and opportunities that we will encounter. And, it is with great pleasure that I submit this report on behalf of the Lisbon School Department.

## Lisbon High School

#### Kenneth J. Healey, Principal

2 Sugg Drive

Lisbon Falls, ME 04252

353-3030

In reflection, the familiar adage, "Time flies when you are having fun," appropriately describes the most recent school year and summer. Through each and every activity that they participated in, our Lisbon High School students continue to represent the school and department in a positive manner. It is with great pride that they are a part of and represent the town of Lisbon. Yet, it feels like just yesterday that the Class of 2012 marched out of our lives and into their perspective futures. I am proud to announce that though the day was wet and overcast, the high school graduation at the Lewiston Armory was a success! We all wish our newest Lisbon High School alumni well, as they explore life without the relative comfort and protection of the high school walls.

Lisbon High School continued to remain focused on academic excellence and our graduation rate. On a monthly basis, the staff worked with students on SAT preparation so that all students would be familiar with the format and types of questions that they would encounter on this standardized test. The high school will continue to have Silent Sustained Reading (SSR) during students' advocacy period. In addition, Read 180 will still be offered to students who need an added level of reading support.

Based on the recommendations of the New England Association of Schools and Colleges (NEASC) 2005 report, much has been accomplished to meet the needs and requirements indicated. Below is a brief overview notable changes that occurred:

- The building heating supply was converted to natural gas from heating oil
- A new hot water heater was installed to improve hot water throughout the entire building; and
- New compressors were installed to improve the cafeteria's refrigeration and freezer capability and eliminate compressor noise.

For the next academic year, we intend to install a handicapped accessible wheelchair lift to allow access to the school's stage. All in all, these improvements have made and will continue to make the Lisbon High School a more functional and safer place for our students and staff.

As Lisbon High School approaches a new year, we all look forward to the challenge of helping transform our school district into a hub for Standards-Based Education (SBE). Competing against a standard and not each other will be our student's future and at Lisbon High School we are all committed to taking this major paradigm shift head-on. Thank you for all the community support we receive each and every year from the citizens of Lisbon.

## Philip W. Sugg Middle School

#### Katherine Race, Principal

4 Sugg Drive Lisbon Falls, ME 04252 353-3055

#### **Statistics**

Philip W. Sugg Middle School currently educates 287 students in grades 6, 7, and 8. Our classrooms are full, our teachers are committed and motivated to prepare our children for their future, and our students continuously strive to make themselves successful members of the Lisbon Community.

#### **Staffing**

As of October 2, 2012, our staff includes 1.5 administrators, .5 Activities Director, 12 classroom teachers, 3 student services teachers, 4 exploratory teachers, 1 gifted and talented teacher, 1 library education technician III, 1 school nurse, 5 student services education technicians, 1 school secretary, 1 administrative secretary, 1 custodian, and 3 lunch personnel.

#### **Classrooms and Structure**

PWS has moved to a trimester grading schedule to support longer blocks of instructional and grading times as well as a new daily schedule. Currently, students are receiving four hours of content area instruction, one hour of exploratory instruction (art, music, PE, foreign language), thirty minutes of advisor/advisee, thirty minutes of academic intervention, and thirty minutes for lunch. This schedule was designed to provide three hours of uninterrupted instruction time first thing in the morning but also allows our exploratory staff to work with the 5th grade students at Lisbon Community School to help assist them with their transition to middle school next year. This year, Lisbon Community School and Philip W. Sugg Middle School did a complete "loop" with the fifth and sixth grade teachers. We will continue with this model due to the positive feedback we have received from students, parents, and teachers. One teacher from eighth grade did move back up to Lisbon High this year.

#### **Instruction**

Academic rigor and preparing the whole child for high school and beyond continue to be our mission at Philip W. Sugg. The sixth and seventh grade teachers continue to work in teams but no longer share a common planning time instead content area teachers share a common planning time and may discuss curriculum and formative assessments if they choose. Our eighth model looks a bit different than the lower grades. The majority of these students have one teacher for ELA and Social Studies so that curriculum is integrated, and then attend math and science with separate teachers. As a staff we pledge to provide quality instruction delivered in a purposeful, organized, and differentiated manner.

#### **Initiatives**

Realizing that the 21st Century Learner looks very different than students of previous years the Lisbon School Department is committed to exploring new ways to engage students in the learning process. As a district, teachers and administrators understand and agree that today's student must be presented with information in different ways utilizing technology. We also recognize that students learn in different ways and in different time frames. The faculty and staff at Philip W. Sugg Middle School are committed to the children in Lisbon and would like to publicly acknowledge and thank all community members for their continued support.

## Lisbon Community School

#### Carlene Iverson, Principal

33 Mill Street Lisbon, ME 04250 353-4132

#### Empowering today's children to succeed in tomorrow's world.

Lisbon Community School is the learning location for approximately 620 students in grades Pre-K to five. These students are arranged in thirty-five homerooms of between fourteen students at Pre-K to 25 students at grade five. Students who are identified with particular learning needs can receive support services from specialized programming such as Title 1, Special Education as well as Gifted and Talented Education.

Classroom instruction at LCS is constantly reviewed and renewed. Teachers meet weekly to discuss student achievement and monitor student progress. The use of assessments to inform instruction as well as report learning has allowed teachers to provide more individualized assistance to all students. The attainment of Adequate Yearly Progress, a designation of the Maine Department of Education reflects the overall academic success of our students.

Students at LCS are learners outside the classroom as well. The Civil Rights Team and Student Council provide students with opportunities for leadership. The Math Team and Chess Team meet bi-weekly and challenge students at a competitive level. Students in grades three through five were able to participate in the chorus and strings program, while students in grades four and five were able to play an instrument in the band program. During the year these music groups provided three different concerts for the public. Many fourth grade students were involved in the drama production, "Get Up and Grow" and fifth grade students performed in the Fifth Grade Talent Show.

In addition to the many adult volunteers who support our students and staff, LCS also had a growing cadre of Junior Volunteers who come to help outside of their own school day. These students serve as mentors, reading buddies, and general support in many of our classrooms. It is heartwarming to see the happy faces of the younger students when one of these Junior Volunteers arrives. LCS also has an active arrangement with Big Brothers - Big Sisters organization and it is equally endearing to see the faces of the "Bigs" when they are the recipients of the adoring attention of the "Littles". We are truly a community that transcends building boundaries.

LCS is proud to have a very active Parent Teacher Organization. Through successful fundraising the PTO has been able to provide field trips and guest speakers to all grade levels, monthly social events for LCS families, support for various school projects, and organize terrific celebrations during Staff Appreciation Week. They are truly a testimony to the saying, "It takes a village to raise a child".

The LCS staff welcomes any and all visitors who would like to see what wonderful learning is happening within our building. If you are interested, please call the school office at 207-353-4132 to arrange a visit.

Lisbon 8ohool Department 2011-2012

# Office of Student Services

#### DIRECTOR'S UPDATE

#### ASSISTING STUDENTS TO REACH THEIR EDUCATIONAL GOALS

- Students with Disabilities
- Students with Gifted and/or Talented Needs
- Students with Disabilities Covered via Section 504
- Students Who are Homeless
- Students with English as a Second Language
- Federal Programa

# 20

#### A TOOL FOR IEP TEAMS

The Lisbon School Department recognizes its responsibility to identify all children between the ages of five and twenty within its Julisdiction who may have a disability which requites special education. This identification is accomplished through a Unit-wide screening process which, while not a definitive of final Judgment of a student's capabilities, is a possible indicator of special edUcational needs. Final identification of students with disabilities and programming for such students occurs only after an appropriate eValUation and determination by the Individualized Education Program, or IEP.

And, the Lisbon School Department's responsibility requires constant attention to the changing nattlite of governing regulations. As of November 1, 2011, the Maine Depattment of Education adopted a new tool, "Form for the Determination of Adverse Effect on Education" for IEP Teams to look at special education identification from all angles. The new form helps the IEP Team answer the question, \*Does the child's disability adversely affect his/her edUcational performance?" In addition, it offers a means to document the Team's answer to the guiding duestion as well as a simplification in regulatory langliage.

... To 'adversely affect'
means to have a
negative impact that is
more than minor or
transient hindrance,
evidenced by findings
and observations based
on data sources and
objective assessments
with replicable
results...
98.9558.101 Section 11.3

### REAPING THE BENEFITS OF SPECIAL OLYMPICS

19 Galtley Street Lisbon, Maine 04250

Phone: 207-353-8711 ext 208 Fex: 207-353-3038 E-mail: hwilmot@liabonachoolame.org

HEATHER WILMOT DIRECTOR The Lisbon School Department has partnered with the Special Olympics with the mission of providing sports training and athletic competition in a variety of Olympic-type sports for children with disabilities, giving them continuing opportunities to develop physical fitness, demonstrate courage, experience joy and participate in sharing of gifts, skills and friendship with their families, other Special Olympics athletes, and the community. Special Olympics is founded on the belief that people with disabilities can, with proper instruction and encouragement, learn, enjoy, and benefit from participation in individual and team sports, adapted as necessary to meet the need of those with special mental and physical limitations.

In addition to the previously established partnerships at the elementary and high school level, during the 2011-12 academic year, the partnership was extended to include middle level students with disabilities. At all three levels, students with disabilities were able to reap the benefits of Special Olympics.

## Adult Education

Sandi Campbell, Administrative Secretary

19 Gartley Street

Lisbon, Maine 04240

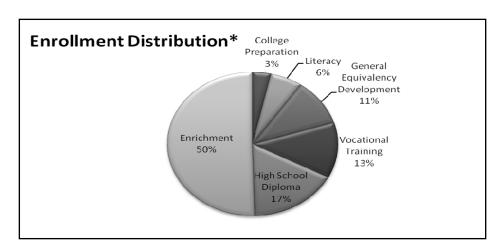

353-3007

Sara Flowers, Director of Adult Education

http://lisbon..maineadulted.org

Lisbon Adult & Community Education has served Lisbon, Lisbon Falls, Durham and the surrounding communities for over twenty years. Adult learners come to us from all over Androscoggin County in order to finish a high school completion credential (including the GED), build skills for the workplace, prepare to enter college, get help with very basic life skills and to learn something new that is good for their bodies and their spirits. We share space with the Central Office and Lisbon High School's Gartley Street Alternative Education program. We operate throughout the year holding classes in the fall, spring and summer semesters. A brochure of all our programs is mass mailed to the community each September and January and all program information can be found at our website. Beyond classes we are also a site for online students to take proctored tests for university and vocational programs as well as ITV delayed viewing of university courses. Our computer lab is equipped with machines, software and internet access for community members to learn more about and participate in the digital age. Please visit us to learn morel

## Water Department

**Water Commissioners** 

William Bauer, Chairman Stanley Doughty, Jr. Kenneth Wells

Paul Adams, General Manager

Once again, the staff has done a great job at meeting the high demands of keeping your drinking water clean and safe. Unlike the highly visible first responders, these dedicated professionals respond to the call of duty day or night virtually unnoticed. Completing the Rt 196 main replacement, analyzing and repairing degraded Moody filter plant performance, and other non-routine tasks along with doing the day-to-day routines are why it is important to have a knowledgeable, experienced and dedicated staff on duty 24/7.

The Water Department staff had to say goodbye to one of the office staff in May. Kristy Sheehan left for a full-time position with the Lewiston accounting office. We wish her well and great success in her new position and thank her for all of her hard work here at the LWD. We were fortunate enough to find a replacement for Kristy in a short period of time. The newest member of our staff is Amy Austin and she is doing a great job in taking over where Kristy left off. Some of you may know her from the school department; she has done quite a bit of volunteer work there.

The Water Department replaced over 4000 lbs of filter media in each of the 4 filter vessels at the Moody Rd Filter plant in February. Immediately upon startup, using the new media, a marked improvement was realized throughout the system. During our spring hydrant flushing all remnants of the dirty water complaints were flushed away. The final evidence that the new media was a tremendous success was that our fall hydrant flushing produce virtually no dirty water complaints and the staff saw little to no sediment during flushing.

When the weather broke, in early April, we proceeded with the replacement of the water main along Rt 196 between Village St and Moody Rd. Thanks to the hard work of the staff and our contractor (Longchamps and Sons Excavation) the Lisbon Water Department was able to complete the project prior to the deadline of June 30th.

In January, the Water Department experienced the result of improving our infrastructure; there were 3 breaks in the same location within a 72 hr period. One of the weakest links in our system is old pipe, which includes Asbestos Cement (AC) pipe. Even though there is a relatively small amount of AC pipe in our system, there is some located along Frost Hill Avenue, which is a very vulnerable location. The Water Commissioners have put the replacement of that section of water main on the top of the priority list, and it is anticipated that it will be replaced in 2013 or at the latest 2014.

#### 2012 Water Pumped

Moody Avenue Station	102,016,000 gallons
196 Bauer Station	35,316,900 gallons
Ann Street Station	41,647,800 gallons
<b>Total Water Pumped for Lisbon</b> lons	178,980,700 gal
Average water pumped per week	3,441,936 gallons
Average water pumped per day	491,705 gallons

#### 2012 Meters

The Lisbon Water Department installed, replaced and/or rebuilt 8 meters:

By size: 8 5/8" meters

#### 2012 Main Repairs

During 2012 the Lisbon Water Department experienced seven water main breaks:

Feb 22	6"	Zamore St.
Mar 8	8"	Pinewoods Rd
May 30	8"	Frost Hill Ave
May 31	8"	Frost Hill Ave
Jun 1	8"	Frost Hill Ave
Sep 26	8"	Frost Hill Ave
Nov 26	6"	East Ave

Due to the work performed on route 196 3000' of 8" pipe was replaced and placed in service.

#### 2012 System Repairs

#### Valve boxes:

5 36" bottom sections

11 36" top sections

17 4 ½ x 12" EZ risers

#### Services:

33 curb boxes installed/replaced33 curb rods installed/replaced

#### 2012 Hydrants

1 hydrant was installed and placed in service on Pinewoods Rd.

#### 2012 New Services

1 new water account

1 one inch tap and service drop

#### TO OUR EMPLOYEES

The Board of Water Commissioners would like thank the entire staff for a very productive year. The residents of our town can be confident that they are receiving the best quality water available and that the employees of the Water Department are very dedicated to serving the needs of the community.

The Water Department staff has continued to maintain a safe and healthy water system. Safeguards such as backflow devices, sampling and monitoring daily water quality have continued to help keep the Water Department from receiving any violations from the Maine Drinking Water Program. As a flexible and responsive team, the staff has done a commendable job handling emergencies, projects, and routine daily duties with little to no interruptions in service. The Public Utilities Commission had announced an upcoming change in their rules which is now under Chapter 660. This required a change in the way water utilities would do business as well as a complete rewrite of the Water Department's Terms & Conditions. The office staff has worked diligently for the past 12 months reviewing and modifying our policies and procedures to meet the new changes. The new Rule and Terms & Conditions will be effective January 1, 2012. Infrastructure The Water Department has experienced an increase in dirty water complaints, which

has been attributed to a decline in the performance of the filter media at the filter plant on Moody Rd. The staff met with the original manufacturer to discuss the deficiency in March and was promised support in fixing the problem. Unfortunately, the company did not follow through with support and we had to look to other resources. We consulted with the engineering firm that was involved in the construction of the plant for a solution. Through the advice of the engineering firm, we contacted an alternate contractor for new filter media. In December, we contracted to replace all the filter media and have the plant working effectively and efficiently shortly after the new year.

In late spring of 2011 the Water Department was notified by the Town that Route 196 would be resurfaced in early 2012 from Lewiston West to the top of the hill near the Sabattus river pavement match line. The Water Commissioners discussed the 5 year moratorium preventing any construction to the road except in the event of an emergency. After several discussions concerning the aging water main in that section of road, it was decided to replace the existing main from Crest Avenue through to the Moody Rd. In late summer we moved forward on the project and a contract was issued to Longchamp's & Sons. The work began on September 28th and progressed smoothly; we were able to complete the main replacement through to the Village St intersection. Work stopped on November 23rd due to the declining weather conditions, which dictated the end of the paving season by closing the asphalt plants. The project will resume in early spring of 2012 as weather permits, with a completion at Moody Rd prior to July 1st.

In July there was a complaint of no water at a home on Avery Street. After some investigation it was determined that the \(^3\)/ inch water main was undersized and could be plugged. The Water Department staff determined that the line should be replaced with a larger line and the Water Commissioners voted to replace the 34 inch line with a 2 inch line. On August 10th a 2 inch water main was installed from the intersection of High and Avery Streets 800 feet along Avery Street.

#### INDEPENDENT AUDITORS' REPORT

June 6, 2012

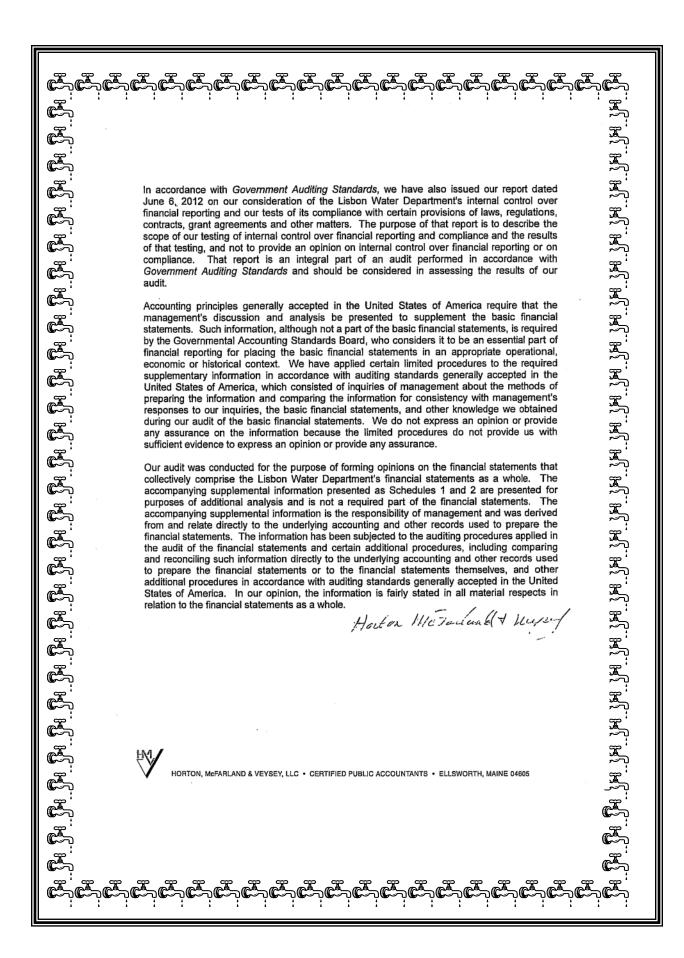

Board of Commissioners Lisbon Water Department Lisbon, ME

We have audited the accompanying balance sheets of Lisbon Water Department as of December 31, 2011 and 2010, and the related statements of revenue, expenses and changes in fund net assets and cash flows for the years then ended. These financial statements are the responsibility of management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the Standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note A, the financial statements of the Lisbon Water Department are intended to present the financial position, changes in financial position and, where applicable, cash flows of only that portion of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Lisbon that is attributable to the transactions of the Department. They do not purport to, and do not, present fairly the financial position of the Town of Lisbon as of December 31, 2011, the changes in financial position, or, where applicable, its cash flows for the year then ended in conformity with accounting principals generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Lisbon Water Department as of December 31, 2011 and 2010, and the respective changes in financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

LISBON WATER DEPARTMENT NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2011 AND 2010

#### NOTE A: SIGNIFICANT ACCOUNTING POLICIES

#### Nature of Business

The Lisbon Water Department (the Department) is an enterprise fund within the Town of Lisbon and operates on revenues derived from water sales and fire protection charges regulated by the Maine Public Utilities Commission. The financial statements of the Department include only assets, liabilities, and retained earnings; operations; and cash flows of the Department. Its accounting policies conform to generally accepted accounting principles as applicable to the quasi-municipal units, which utilize the accrual basis of accounting and to the regulations of the Maine Public Utilities Commission.

#### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Cash and Cash Equivalents

For purposes of these statements, the Department considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Total cash is categorized as follows at December 31:

Carrying Balance	<b>2011</b> 678,856	<b>2010</b> 790,700
Bank Balance	697,468	804,578
Insured Uninsured	253,876 443,592 697,468	500,000 304,578 804,578

Insured amounts are covered by the Federal Deposit Insurance Corporation (FDIC) and the National Credit Union Association (NCUA).

#### Accounts Receivable

Accounts receivables are stated at net realizable value. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collections efforts are written off through a charge to the valuation allowance. The allowance for doubtful accounts as of December 31, 2011 and 2010 was \$1,000.

HORTON, McFARLAND & VEYSEY, LLC . CERTIFIED PUBLIC ACCOUNTANTS . ELLSWORTH, MAINE 04605

#### LISBON WATER DEPARTMENT NOTES TO THE FINANCIAL STATEMENTS **DECEMBER 31, 2011 AND 2010** NOTE A: SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) Materials and Supplies Inventories of materials and supplies are stated at cost using the first-in first-out method. Property, Plant and Equipment Property, plant and equipment are stated at cost. Depreciation has been provided on a basis considered adequate to amortize the cost of depreciable assets over their estimated useful lives on the straight-line method at rates from 1.3% to 20%. These rates conform to Maine Public Utilities Commission, Chapter 680. **Unamortized Bond Issue Costs** Bond issuance expense consisting of legal fees and other costs incurred in connection with long-term debt are being amortized over the term of the bond. The amount amortized in 2011 and 2010 was \$3,931. Other Deferred Charges Other deferred charges benefit future periods and are being amortized based on estimates of the periods benefited. Other deferred charges consist of the following at December 31: 2010 2011 -0-379 Notes Payable Interest Standpipe Painting Costs -0-6,536 1,900 Standard Operating Manual Costs 950 Rate Case Costs 2,395 3,991 12,806 3,345 Regulatory Liabilities Regulatory liabilities represent amounts recovered from customers in advance of incurring the costs. The District's liability at December 31, 2011 and 2010 totaling \$206,958 and \$184,358, respectively, relates to future standpipe painting expenses. Regulation As a regulated water utility, the Department is subject to regulation by the Maine Public Utilities Commission, which has jurisdiction with respect to rates, service, accounting procedures, acquisitions and other matters. The Department defers certain costs and credits as regulatory assets and liabilities when it is probable that such amounts will be recognized in the rate making process in a period different from the period in which they would have been reflected in income by an unregulated entity. HORTON, McFARLAND & VEYSEY, LLC . CERTIFIED PUBLIC ACCOUNTANTS . ELLSWORTH, MAINE 04605

LISBON WATER DEPARTMENT NOTES TO THE FINANCIAL STATEMENTS **DECEMBER 31, 2011 AND 2010** NOTE A: SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) Compensated Absences The Department accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits. Department employees are granted varying amounts of vacation and sick leave in accordance with the Department's personnel policy. Upon termination employees are paid for accrued vacation and unused sick leave based on factors set forth in the Department's employee handbook. The accrued benefit liability at December 31, 2011 and 2010 was \$19,126 and \$18,034, respectively. Measurement Focus, Basis of Accounting and Basis of Presentation accounting entity with a self-balancing set of accounts.

The Department uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain functions and activities. A fund is a separate

The Department prepares its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the Unites States of America for proprietary funds, which are similar to those for private business enterprises. Proprietary funds are accounted for on the flow of economic resource measurement. Accordingly, revenues are recorded when earned and expenses are recorded when incurred. In accordance with GASB Statement No. 20, the Department follows the pronouncements of the Financial Accounting Standards Board (FASB) issued before November 30, 1989 except where those elected not to follow, subsequent private-sector guidance. Proprietary funds distinguish operating revenues and expenses from non-operating activity. Operating revenues arise from providing goods or services to outside parties for a fee. Revenues and expenses that are not derived directly from operations are reported as non-operating revenues and expense. Proprietary funds used by the Department include enterprise funds described below.

Enterprise Funds - Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of net revenues, (b) has third party reimbursements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) established fees and charges based on a pricing policy designed to cover similar costs.

#### Contributions in Aid of Construction

Contributions in aid of construction include direct non-refundable contributions. Utility plant funded by contributions is not depreciated for rate making purposes. The net contributions in aid of construction included in total net assets at December 31, 2011 and 2010 is \$1,360,123 and \$1,383,007, respectively.

LISBON WATER DEPARTMENT

LISBON WATER DEPARTMENT NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2011 AND 2010

#### NOTE C: MAJOR CUSTOMER

The Department derived approximately 32% of its operating revenues from the Town of Lisbon related to the servicing of public fire hydrants for the years ended December 31, 2011 and 2010.

#### NOTE D: NET ASSETS

Net assets comprise the various net earnings from operating and non-operating revenues, expense and contributions of capital. Net assets are classified in the following three components; invested in capital assets, net of related debt; restricted for capital activity and debt service; and unrestricted net assets. Invested in capital assets, net of related debt, consists of all capital assets, net of accumulated depreciation and reduced by outstanding debt that is attributable to the acquisition, construction and improvement of those assets. Invested in capital assets, net of related debt is calculated as follows:

	2011	2010
Total Property, Plant and Equipment	5,959,829	5,866,466
Long-Term Debt (Including Current Portion)	(3,234,366)	(3,451,381)
Invested in Capital Assets, Net of Related Debt	2,725,463	2,415,085

Restricted for capital activity and debt service consists of net assets for which constraints are placed thereon by external parties, such as lenders, grantors, contributors, laws, regulations and enabling legislation, including self-imposed legal mandates, less any related liabilities. The Department had restricted net assets in the amount of \$0 and \$283,964 for capital projects as of December 31, 2011 and 2010, respectively. Unrestricted consists of all other net assets not included in the above categories.

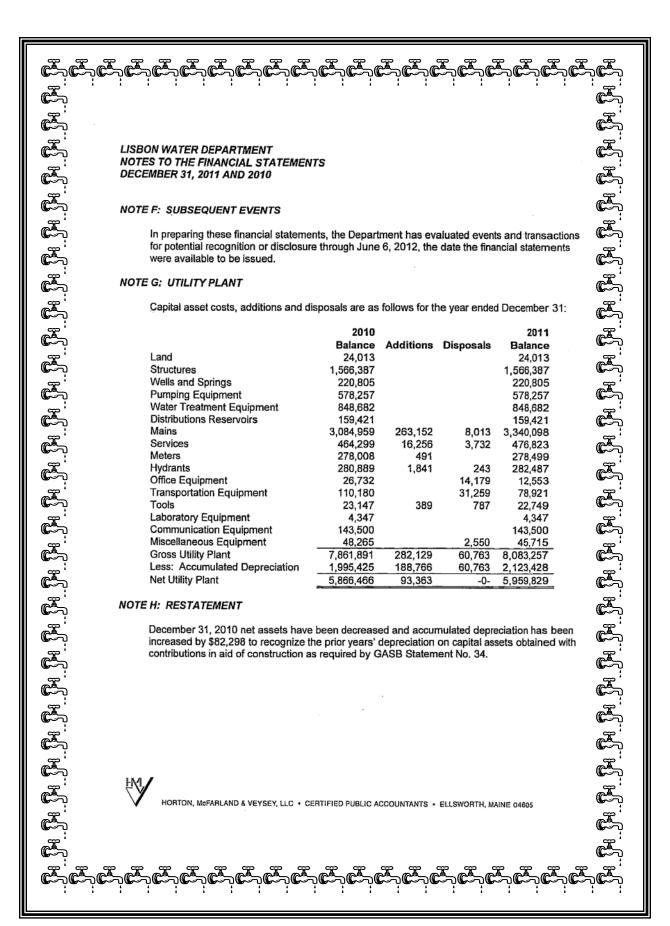

#### NOTE E: RETIREMENT PLAN

The Department participates in the Maine Public Employees State Retirement System (MPERS), which is a multiple-employer agent Public Employer Retirement System as defined by GASB Statement No. 25. Participation in the system is elective. Benefits are defined by State law.

Participation in the MPERS is available to all Department employees. Participants generally are fully vested at age 60 with 25 years of credited service. In general, they are entitled to an annual benefit equal to 2% of final compensation multiplied by the number of years of credited service, payable monthly. The MPERS also provides death, disability and health insurance benefits. Employees' contribution rate is set by statute at 6.5%.

Effective July 1, 1996, the Department joined other municipal entities in the Maine State Retirement System's Participating Local Department Consolidation Plan. The Department's Plan requires payment of 4.4% of payroll of participants as its contribution for normal costs and other ancillary benefits. The Department receives a monthly credit for its Initial Unpooled Actuarial Liability determined by the Plan's actuary based on \$48,651 amortized at \$532 monthly over 10 years from July 1, 2011. The Department's expense for the retirement plan in \$011 and 2010 totaled \$942 and \$0, respectively.

Veysey, CPA (1948 - 2006) 207-667-5529 • 1-800-499-9108 • FAX 207-667-9915 Amy J. Billings, CPA Ellen Cleveland, CPA Nicholas Henry, CPA Ruth W. Wilbur, EA REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS June 6, 2012 **Board of Commissioners** Lisbon Water Department Lisbon, Maine We have audited the financial statements of Lisbon Water Department as of and for the year ended December 31, 2011, and have issued our report thereon dated June 6, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Internal Control Over Financial Reporting In planning and performing our audit, we considered Lisbon Water Department's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Lisbon Water Department's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Lisbon Water Department's control over financial reporting. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Department's financial statements will not be prevented, or detected and corrected on a timely basis. Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.
